PROFESSIONAL EXPERIENCE

Desktop Support Audit Technician (Apex Contract)

Inova Health System — Fairfax, VA

October 2025 – Present

- Improved IT audit initiatives by leading documentation of enterprise systems, access controls, and configurations
 - Collaborated with IT teams to enhance system reliability and internal control processes by 50% at Northern Virginia Inova sites
 - Validating system implementations and testing control effectiveness post-deployment
 - Refined user access and system workflows to identify risks impacting compliance and reporting
-

Senior Analyst (Audit-Focused Contract with Qlarant)

Myers & Stauffer — Remote

January 2025 – June 2025

- Led evaluation of healthcare financial systems and internal processes for compliance with state and federal health care regulatory requirements
 - Performed detailed documentation reviews and validated system outputs against defined controls
 - Identified process and control deficiencies and recommended remediation actions, leading to enhanced CMS compliance every quarter
 - Collaborated with stakeholders, lead walkthrough meetings to strengthen internal control frameworks
-

Data Analyst Audit / Accounts Payable Specialist

BSI — Herndon, VA

June 2024 – May 2025

- Supported financial reporting processes within ERP systems, ensuring alignment with internal controls and compliance requirements
 - Performed control validation within Procure-to-Pay (P2P) workflows, including invoice processing and reconciliation
 - Maintained audit-ready documentation to support internal and external audits
 - Identified and investigated discrepancies, contributing to control gap remediation efforts
 - Improved reporting accuracy through enhanced tracking and documentation processes
-

Operations Assistant

Charcoal — Remote

September 2023 – May 2024

- Reviewed contracts and financial documentation for compliance with internal policies
 - Supported IT assessments, including testing operating effectiveness of IT internal controls over financial reporting
 - Evaluated IT control design and effectiveness to ensure accurate financial reporting
-

Technology Risk Consultant

Ernst & Young (EY) — San Diego, CA

July 2022 – August 2023

- Executed SOX IT control testing for publicly traded clients, including testing of ITGCs such as user access, change management, and system operations controls
 - Assessed control design and performed operating effectiveness testing in support of SOX 404 compliance
 - Conducted process walkthroughs to understand financial systems and identify key control points impacting financial reporting
 - Documented testing procedures, results, and deficiencies in accordance with audit standards
 - Partnered with client stakeholders to remediate control gaps and improve control environments
 - Coordinated with external auditors to support audit reliance and compliance efforts
-

Help Desk Administrator

Career Technologies — Falls Church, VA

June 2021 – June 2022

- Managed user access provisioning and supported application controls within enterprise systems.
 - Assisted in troubleshooting system and access-related issues impacting operations.
