

CHAITANYA KUMAR

Senior Data Analyst | Banking & Healthcare | Risk, Regulatory & Operations Reporting

571-460-5878 • madarichaitanya99@gmail.com • [linkedin.com/in/ckumar-data-analyst](https://www.linkedin.com/in/ckumar-data-analyst) • Fairfax, VA (Open to Relocation)

PROFESSIONAL SUMMARY

Data Analyst with 5 years of experience in banking, healthcare, and financial services. I've cut reporting turnaround by 50%, improved data quality by 35%, and built ETL pipelines that handle 10M+ records. Comfortable working across SQL, Python, Power BI, Tableau, Databricks, Azure, AWS, and Snowflake. I work regularly with compliance, risk, and executive teams to turn regulatory requirements into automated reporting solutions, with hands-on experience supporting SOX and HIPAA standards.

PROFESSIONAL EXPERIENCE

Data Analyst | **Bank of America** | Jersey City, NJ

November 2024 – Present

Regulatory Reporting, Risk Analytics & Data Governance

- Reduced regulatory reporting turnaround time by 50% by building automated workflows using SQL stored procedures and Python scripts, saving the team over 20 hours of manual work each week.
- Improved reporting accuracy by 35% across multiple financial systems by setting up automated reconciliation and validation processes that caught data issues before reports were submitted.
- Processed and validated over 10 million transaction records per cycle using SQL and Python, cutting downstream reporting errors by 30%.
- Built ETL pipelines on Databricks that increased data processing speed by 40%, supporting risk, compliance, and operational reporting across the business.
- Created Power BI dashboards and KPI scorecards for senior leadership that provided clear visibility into risk, compliance, and performance reducing the volume of one-off reporting requests.
- Improved data integrity metrics by 30% by putting automated audit checks and validation rules in place, helping the team stay aligned with SOX compliance requirements.
- Worked closely with business, compliance, and engineering teams to gather reporting requirements and deliver solutions that consistently met regulatory deadlines with no audit findings.

Data Analyst | **Behavioral Healthcare of Maryland** | United States (Remote)

December 2023 – November 2024

Clinical Operations & Financial Reporting Analytics

- Built 10+ Power BI and Tableau dashboards tracking patient utilization, billing accuracy, and operational KPIs, increasing financial and operational visibility by 30% for executive and compliance teams.
- Eliminated 60% of manual reporting effort by engineering automated data preparation pipelines in SQL and Python compressing monthly close cycles from days to hours.
- Improved dataset accuracy by 30% by establishing rigorous data transformation and validation protocols across multi-source clinical and financial systems, ensuring consistent, audit-ready reporting.
- Surfaced cost reduction opportunities worth 25% improvement in insight quality by analyzing large-scale patient and billing datasets, directly informing leadership planning decisions.
- Partnered with clinical and operational stakeholders to document data requirements and deliver analytics solutions that improved planning efficiency by 20% and reduced ad-hoc report requests.

Junior Data Analyst | **Cognizant** | Hyderabad, India

March 2020 – December 2021

Sales Operations & Financial Data Engineering

- Processed 5M+ records daily by developing SQL-based ETL workflows, supporting enterprise financial and operational reporting systems.
- Improved reporting accuracy by 35% by performing data validation, reconciliation, and cleansing across multiple distributed data sources.
- Reduced manual reporting effort by 40% by building automated dashboards and reporting tools, improving operational efficiency for business users.

- Supported project delivery timelines by improving efficiency by 20% by collaborating with cross-functional stakeholders to translate business requirements into technical solutions and reporting workflows.

EDUCATION

M.S. in Data Analytics Engineering — George Mason University, Fairfax, VA	2022 – 2024
B.E. in Computer Science — Anurag University, Hyderabad, India	2016 – 2020

CERTIFICATIONS

- Databricks Certified: SQL Analytics & BI.
- Databricks Certified: Generative AI and Data Engineering.
- Python: Mastering The Essentials from Scaler.

TECHNICAL SKILLS

Languages & Query: SQL (Advanced), Python (Pandas, NumPy), R, DAX, M Query, VBA

BI & Visualization: Power BI, Tableau, Looker

Cloud & Data Platforms: Databricks, Snowflake, Azure Synapse Analytics, AWS (S3, Redshift, Athena)

ETL & Workflow Tools: Alteryx, Excel (Power Query, VBA), Git, Jira

Compliance & Governance: SOX, HIPAA, PII Handling, Audit Controls, Data Quality Frameworks

Domain Expertise: Financial Reporting, Regulatory Compliance, Risk Analytics, Revenue Operations, Sales Operations, Clinical Analytics, Data Warehousing

FEATURED PROJECTS

Regulatory Reporting Automation (Bank of America): Designed and deployed an end-to-end automated regulatory compliance reporting workflow using SQL and Python. Reduced monthly report preparation time by 40% and eliminated recurring data issues resulting in zero late filings and improved audit readiness.

Clinical Analytics Dashboard Suite (Behavioral Healthcare of Maryland): Architected and launched a suite of 10+ Tableau dashboards tracking patient utilization, billing accuracy, and operational KPIs. Enabled real-time leadership visibility that directly supported compliance reporting and cost containment initiatives.
