SUMMARY

Recent computer science graduate with strong analytical and product skills, combining technical expertise with data-driven decision-making. Experienced in SQL, Python, Google Analytics, and A/B testing, and led projects in hiring automation, gaming discovery, and security analytics to measure engagement and prioritize features.

TECHNICAL SKILLS

Analytics & Data: SQL, Python (Pandas, NumPy), Excel, Google Analytics, A/B Testing, Data Visualization (Tableau, Power BI, Looker)

Product & UX: Figma, AdobeXD, Wireframing, Prototyping, User Research, Product Roadmapping

Technical: React Native, Tailwind CSS, HTML, CSS, JavaScript, APIs, FastAPI, Flask

Databases & Cloud: Supabase, Firebase, MongoDB, PostgreSQL, AWS (S3, Lambda), Vercel

DevOps & Tools: Git, GitHub, GitLab, CI/CD, Jira, Postman, Agile/Scrum

Certifications: Certified Scrum Master (2022), Google Analytics (2020)

PROJECTS

Rekroot - AI Powered Hiring Assistant

May 2025 - Present

- Built and deployed an AI-powered HR chatbot using LLaMA 3, LangChain, and Chroma vector DB to parse employee handbooks, answer HR FAQs, and automate service/leave requests, reducing manual HR query handling time by 40%.
- Engineered a full-stack website prototype with React, TypeScript, Python, and Supabase, integrating NLP pipelines for resume parsing and candidate Q&A, which generated 100+ personalized interview questions to assist recruiters in early hiring stages.

Lobbee - <https://www.joinlobbee.com/>

January 2025 - Present

- Led the full MVP lifecycle of a gaming discovery platform, from concept and design (10+ wireframes, interactive prototypes) through user onboarding and marketing, engaging early adopters and onboarding gaming venues.
- Developed and scaled the full-stack app (Supabase backend, React Native frontend), integrating RAWG/IGDB APIs to support 500+ users and 10,000+ games, while analyzing user data to drive feature improvements and engagement metrics.

Phishing Website Detection using Machine Learning

January 2025 - May 2025

- Created a data pipeline using Python, FastAPI, and web scraping tools to collect, clean, and structure 200,000+ URLs, preparing high-quality datasets for phishing detection and analysis.
- Implemented a browser extension and backend analytics system with MongoDB and Docker, processing 3,000+ URLs/day to deliver real-time alerts and actionable insights that improved security monitoring efficiency.

Cracking the Gaming Industry

August 2024 - December 2024

- Led a team of 5, running weekly Scrum meetings to deliver 10+ visualizations on time, coordinating data collection, cleaning, and analysis of 50,000+ gaming records.
- Developed interactive dashboards using Tableau and D3.js, analyzing trends across genres, publishers, and platforms, generating insights used by game developers to guide market strategy.

PROFESSIONAL EXPERIENCE

Inhance Digital - Intern, Remote

August 2023 - May 2024

- Designed a VR platform in Unity using C# for scripting, GitLab for version control, and Google Maps APIs to enable real-time geospatial data visualization across 10+ interactive UI screens.
- Acted as Scrum Master, running bi-weekly sprints with Jira, improving feature delivery by 20% and meeting deadlines.

ProjectingIT - Frontend Engineering Intern, Remote

May 2023 - July 2023

- Revamped the company's main web platform using Figma, delivering high-fidelity wireframes that improved page usability by 25% and enhanced overall user experience.
- Executed responsive UI components using HTML, CSS, and JavaScript, optimizing site performance by 22% faster page load.

Locifood - Data & UX Analyst Intern, Remote

July 2020 - November 2020

- Redesigned and prototyped website interface using Adobe XD, creating 15+ mockups and wireframes that improved user experience and responsiveness, resulting in a 20% increase in user engagement.
- Optimized user behavior metrics and KPIs with Google Analytics and Excel, running A/B tests that increased site traffic by 12% and conversion rate by 18%, providing actionable insights for product improvements.

EDUCATION

Master of Science in Computer Science

Arizona State University, Tempe, AZ

Bachelor of Science in Computer Science, Minor in Engineering Management

Arizona State University, Tempe, AZ
