

Hamdi Ali, MD

Rochester, MN | 612-804-9288 | hamdi.a.ali1998@gmail.com | www.linkedin.com/in/ali-hamdi11

PROFESSIONAL SUMMARY

Physician–scientist with seven years of experience supporting clinical and population-level data across research and public health systems. Skilled in data quality validation, multi-cycle dataset comparison, and outcome analysis. Former Mayo Clinic Research Fellow and Minnesota Department of Health Epidemiologist with expertise in data integrity, root-cause analysis, and clear, stakeholder-ready reporting.

CORE SKILLS

Data Quality Analysis & Validation • Clinical & Real-World Data (RWD) Analytics • Dataset Comparison & Refresh Cycle Review • Data Integrity & QA Controls • Root-Cause Analysis & Issue Documentation • KPI Development & Trend Monitoring • EHR & Registry Data Abstraction • Stakeholder-Ready Reporting

PROFESSIONAL EXPERIENCE

Epidemiologist – COVID-19 Surveillance | Minnesota Department of Health (2020–2022)

Performed systematic data validation and quality checks across large surveillance datasets. Conducted refreshed dataset comparisons to identify expected versus unexpected changes. Identified and escalated data inconsistencies, supported root-cause analysis, and produced analytic summaries for stakeholders.

Research Fellow – Gastroenterology & Hepatology | Mayo Clinic (2015–2018)

Supported clinical and real-world oncology data products. Performed structured data extraction, validation, and cohort reconciliation across multi-center datasets. Conducted dataset comparisons and resolved data logic issues prior to analysis.

Pediatric & Adolescent Medicine Resident | Mayo Clinic (2018–2020)

Developed high-reliability documentation, interdisciplinary communication, and structured clinical reasoning applicable to healthcare data quality and regulated workflows.

TECHNICAL SKILLS

SQL (foundational), Excel (advanced), REDCap • Data validation methods, logic checks, anomaly detection • Python (introductory) • EHR abstraction, registries, surveillance systems • Data summaries, validation documentation • IRB systems, EndNote

EDUCATION

Doctor of Medicine — Windsor University School of Medicine
Master of Public Health (MPH), Candidate — Walden University
Bachelor of Science, Biology — University of Minnesota
