WORK EXPERIENCE

FINOPTIMAL

Houston, TX

Business Analyst | Accountant | Python Developer

Jun 2022 - Feb 2024

- Designed and implemented financial dashboards for clients using Google Sheets, integrating data from Intuit QuickBooks via proprietary software.
- Developed and maintained proprietary software to automate data updates in financial dashboards based on real-time QuickBooks data, ensuring accurate and up-to-date information for clients.
- Spearheaded the development of APlus, a proprietary tool leveraging ZenDesk API and Bill.com API to automate workflows, resulting in significant time savings of up to 20 hours per client per month for approximately 30 clients.
- Utilized Python to establish automated workflows between Expensify, Procurify, Bill.com, and Intuit QuickBooks, facilitating seamless transaction processing and bookkeeping, cutting down the amount of work done by accountants by up to 70%.
- Engineered an export process to transfer data from Dropbox file systems to the company database, leveraging SQL for efficient data management and retrieval.

OFFICE OF DIGITAL LEARNING, C. T. BAUER COLLEGE OF BUSINESS

Houston, TX

Instructional Assistant

Jul 2020 - Jun 2022

- Managed projects for MS Stream video integration, which included the transfer of content from BlackBoard and the creation of member groups with the utilization of MS Azure which served 5-10 faculty and over 1,000 students.
- Designed Blackboard content for professors to assist in effective communication and information access for the students.
- Served faculty in creating, deploying, and troubleshooting exams in BlackBoard and Respondus Software.
- Assisted in creating an OER textbook teaching Power BI and Excel for the utilization by over 6000 Bauer students.

BECO & CO SUPERMARKETS

Houston, TX

Data Analyst Intern

Jun 2021 - Aug 2021

- Utilized Python to clean data collected from the past 4 years for analysis and identify any data issues.
- Identified new consumer-product engagement insights by using Python and presented those insights using Power BI.
- Conducted data assessment to present the changing trends and behaviors among consumer preference and the impact of Covid-19 on sales.
- Insights presented from data driven statistical models and market basket analysis helped increase sales of over 60,000 products.

TEXAS CHILDREN'S HOSPITAL (TCH)

Houston, TX

Capstone Project – University of Houston

Jul 2021 - Jun 2022

- Collaborated with Texas Children's Hospital (TCH) to analyze patient data and develop predictive models for identifying patients at higher risk of bloodstream infections.
- Utilized advanced statistical techniques and machine learning algorithms to analyze large datasets and identify relevant predictors.
- Developed and implemented predictive models using Python and presented findings and recommendations to stakeholders at TCH, demonstrating strong communication and analytical skills.

HARRIS COUNTY DEPARTMENT OF EDUCATION (HCDE)

Houston, TX

Analyst Intern

Jun 2019 - Aug 2019

- Worked with board members of HCDE to analyze school district's performance by utilizing open source data for data analysis.
- Performed data analysis and statistics on the performance of schools, counties, and districts to help map out underperforming counties and schools and provide input on underlying reasons.
- Utilized advanced Excel models to analyze collected data and generate actionable insights, enabling HCDE officials to effectively target areas for improvement and make informed decisions aligned with organizational goals.
