WORK EXPERIENCE

Working in Northstar Technologies – (Remote) as a Business Intelligence Developer from October 2022 to till date.

Job Responsibilities:

Developed interactive Power BI dashboards for Golf Club ERP systems covering modules like AR, AP, GL, F&B, Membership, Marina, and Reservations.

Delivered financial and operational insights for revenue tracking, budgeting, and customer engagement.

Designed complex DAX calculations for trend analysis and advanced reporting.

Built and optimized ETL pipelines from MySQL to Power BI, ensuring accuracy and consistency.

Embedded Power BI into Java EE web applications and created the “NS Analytics” module.

Customized JSON themes to improve visual design and brand consistency in reports.

Enhanced performance with Dataflows and dataset optimizations.

Worked in Northstar Technologies as a DevOps Engineer from June 2022 to September 2022.

Job Responsibilities:

Provisioned and managed AWS EC2 instances and S3 buckets for clients.

Configured Cloudflare, MQTT, and New Relic setups for monitoring and security.

Installed and managed SSL certificates on Tomcat & Apache servers.

Configured SMTP (SendGrid) for secure email services.

Implemented firewalls, group policies, and system security rules.

Worked in Northstar Technologies as an Data Migration Engineer from January 2020 to May 2022.

Job Responsibilities:

Executed database migrations and replication across multiple servers.

Maintained and upgraded client ERP applications for performance and stability.

Designed and implemented **transaction-driven migration workflows**.

Cleaned and transformed legacy data into structured load files.

Delivered **end-to-end client onboarding**, from application setup to database population.

Provided **technical leadership and mentoring** to junior staff during migration projects.

Lead team of 14 Junior staff by providing them training and assign task to them.

INTERNSHIP

Interns.pk (AUGUST 2019 - SEPTEMBER 2019)
