- **Master of Science | Finance** (STEM-designated) | **Graduate Certificate in Enterprise Analytics** **GPA - 4.00**
Portland State University | OR, USA | September 2025
- **Master of Business Administration | Finance**
Sikkim Manipal University | India | 2017
- **Bachelor of Commerce**
Guru Nanak Dev University | India | 2014

CERTIFICATIONS

- CFA Level Candidate | November 2025 • Bloomberg Finance Fundamentals and Market Concepts • Bloomberg Spreadsheet Analysis

SKILLS

- **Data Analytics & Tools:** Advanced Excel (Including Power Query, Macros, VLOOKUPs, VBA, PivotTables and Array Functions), SQL, Python, R, Alteryx, Data Bricks Tableau, Power BI, SAP, Workday, JIRA, Teradata Catpro, Logic ERP, Finacle
- **Core Competencies:** Performance Measurements, Financial Strategy, Financial Planning and Analysis, Forecasting, Cost Analysis, Scenario and Sensitivity Analysis, Key Performance Indicators (KPIs), Account Reconciliation, Supply Chain Analytics, Logistics Optimization, Operational Enhancement, Business Intelligence, Data Modeling, Predictive Modeling, Porter's Five Forces and SWOT Analysis

EXPERIENCE

- **Finance Intern**
Multnomah County | June 2025 – Feb 2026
Supported the Financial & Business Management Division across multiple projects, conducting internal audits and developing complex data reports using advanced analytics. Reviewed \$270K+ in incentive and cash-equivalent disbursements, identifying tracking and reconciliation gaps and producing dashboards and reports that strengthened oversight; findings were later highlighted by [The Oregonian/OregonLive](#). Developed AP KPIs, analyzed workflow variances, and streamlined processes to improve tracking, reporting accuracy, and internal control effectiveness.
- **Associate Manager – Business Performance & Analytics**
Max Life Insurance Company Limited, India | Dec 2019 – Dec 2020
Boosted revenue by optimizing cross-selling and customer segmentation for multi-branch banking partners. Built dynamic forecasting models and KPI dashboards to enhance partnership efficiency. Collaborated across teams to support data-driven strategy and business growth.
- **Senior Associate – Strategy & Compliance Analytics**
Canara HSBC OBC Life Insurance Company Limited, India | Jan 2019 – Dec 2019
Executed audits on insurance offerings, identified compliance gaps and opportunities for product optimization. Enhanced partner collaboration by optimizing service-level metrics, improving SLA adherence and operational efficiency. Developed performance tracking templates to revamp planning and drive improvements in customer service.
- **Assistant Manager – Financial & Bid Analysis**
Neelshiva Overseas, India | May 2015 – Oct 2018
Managed e-procurement and business development projects value \$1.5 million, overseeing execution, budgeting, and strategic alignment. Developed bid evaluation tools to optimize tender submissions and improve win rates. Led procurement and supply chain analytics and created dashboards to track spending and support negotiations.
- **Assistant Accountant – Financial Operations**
Delhi Punjab Goods Carrier Private Limited, India | April 2013 – May 2015
Conducted reconciliations, variance analysis, and journal entries to support month-end close across operational accounts. Automated monthly reporting workflows, improving close efficiency by 20%. Provided actionable financial insights for budget tracking and cost control across regional operations.

PROJECTS

- **Financial Performance Analysis Project** – Led a 5-year financial benchmarking provided insights with LRP and US GAAP.
- **DCF Valuation – Target Corporation** – Created DCF models with WACC, pricing strategy, and sensitivity and scenario analysis.
- **Healthcare Predictive Analytics – Kaiser Permanente** – Simulated heart disease risk scenarios using Python, logistic regression, and A/B testing to predict outcomes and delivered actionable insights for strategic stakeholder decisions.
- **Pharmacy Retailer Market Analysis** – Performed ETL, regression, and profitability analysis in Excel, modeling retail growth strategies.
- **SQL Reporting & Data Architecture – Velvet Vanity** – Designed an IE-notated relational database and E-R diagram to support business operations, incorporating PK/FK logic and optimized reporting via KPI dashboards.
