

Ankita Bhutkar

Business Strategy Analyst

Chicago, IL | 312 229-0695 | ankitab7171@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

Business Analyst and Growth Operations professional with **4+ years** of experience driving **revenue strategy**, **operational performance improvement**, and **data-driven decision making** across consulting and marketplace environments. Applies **SQL, Python, Tableau, and financial modeling** to translate **business requirements** into structured execution plans, optimize **performance metrics**, and accelerate reporting efficiency. Supports cross-functional initiatives that improve **operational visibility**, streamline **project delivery cycles**, and enable scalable **multi-market growth**.

PROFESSIONAL EXPERIENCE

Uber | Strategy & Operations Analyst, Grocery & Retail | Chicago, IL | Jan 2025 – Feb 2026

- Drove **Revenue Growth** initiatives using **SQL, Tableau, and Salesforce CRM**, expanding marketplace supply by **onboarding 50+ partners** across 6 markets and activating 38 high-volume stores within 90 days.
- Performed merchant-level **Financial Modeling** and **Retention Metrics** analysis (Revenue, Margin, AOV, and Cohort Trends) to identify **14 underperforming accounts** and implement pricing and promotional adjustments.
- Developed **Demand Forecasting** models aligned with supply-demand elasticity, improving inventory allocation across 4 retail categories and strengthening **Operational Efficiency** during peak cycles.
- Executed **Marketplace Optimization** strategies by reallocating paid media and in-app budgets across 8 segments, improving acquisition efficiency and repeat purchase behavior.
- Built standardized **KPI dashboards** in **Tableau** tracking **Activation Rate, Conversion, and AOV**, reducing reporting turnaround by 5 business days and accelerating executive review cadence.
- Delivered data-backed **Market Expansion** and **Cost Optimization** recommendations via structured revenue diagnostics, utilizing generative **AI tools (ChatGPT, Copilot, Gemini)** for scenario validation to secure approval for 9 investment reallocations.

McKinsey & Company | Business Analyst / Assistant Project Manager | Chicago, IL | Oct 2024 – Jan 2025

- Conducted structured **operational diagnostics** using **SQL** and **Financial Modeling**, evaluating cost drivers and process **bottlenecks** across 3 Fortune 500 engagements; improved **Operational Efficiency** by reducing cycle time by 18 business days.
- Translated stakeholder objectives into **BRDs** and sprint-ready backlog items, aligning cross-functional teams to deliver 22 prioritized initiatives supporting **Market Expansion** and execution stability.
- Built revenue sensitivity and **Cost Optimization** models in Excel (scenario modeling, variance analysis), identifying 7 performance levers influencing enterprise-level **Revenue Growth**.
- Analyzed performance trends using structured **KPI dashboards, variance tracking, and cohort analysis** to support **Forecasting** accuracy and executive decision-making.
- Synthesized executive reporting materials integrating financial diagnostics, **Retention Metrics**, and **AOV** performance analysis, contributing to approval of 11 roadmap initiatives.
- Facilitated governance cadences across **Product, Finance, and Technology** teams, strengthening milestone accountability and improving cross-functional delivery discipline across 5 project phases.

Epsilon | Assistant Project Manager | Chicago, IL | Aug 2024 – Oct 2024

- Spearheaded performance diagnostics across retail and automotive digital campaigns using **SQL, Tableau, and budget allocation analysis**, improving ROI performance across 6 priority audience segments.
- Executed multichannel **A/B and multivariate testing** strategies leveraging **Excel analytics and campaign attribution models**, increasing click-through volume by 12K+ interactions across high-traffic audience groups.
- Designed **predictive audience segmentation** models with **SQL and Python (Pandas)**, enabling lifecycle-based targeting strategies adopted across 4 client engagement programs.
- Implemented reporting pipelines and KPI dashboards using **Tableau and structured data workflows**, reducing manual reporting cycles by 5 business days across stakeholder reviews.
- Coordinated cross-functional initiatives with Analytics, Engineering, and Creative teams through **Jira sprint tracking and milestone governance**, delivering 9 loyalty and retention initiatives within scheduled release windows.
- Delivered quarterly performance briefings using structured **KPI analysis and financial impact modeling**, influencing approval of 7 budget reallocation decisions across client portfolios.

Silicon Valley Project Management | Agile Project Developer | Chicago, IL | Apr 2024 – Aug 2024

- Implemented **Scrum and Kanban frameworks** using Jira sprint boards and backlog refinement practices, reducing development cycle duration by 18 delivery days across 4 product iterations.
- Applied **Lean process analysis and workflow mapping** to identify operational bottlenecks, restructuring task allocation and improving cross-team throughput across 3 concurrent workstreams.

- Reengineered CRM workflow configurations using structured data analysis and stakeholder feedback loops, increasing active customer touchpoints by 22K interactions within two release cycles.
- Facilitated daily **stand-ups, sprint planning, and retrospective ceremonies**, coordinating 8 cross-functional contributors to deliver 11 feature enhancements within scheduled milestones.
- Produced executive-ready project documentation and milestone dashboards using structured **KPI tracking**, enabling approval of 6 roadmap initiatives during quarterly governance reviews.

Illinois Tech | Graduate Learning Services (ARC) | Supervisor / Instructor | Chicago, IL | Aug 2023 – Feb 2024

- Directed structured academic coaching sessions using performance tracking dashboards and student progress analytics, supporting 120+ graduate students across 6 core technical subjects.
- Coordinated remote instructional teams through **Zoom, Google Workspace, and shared documentation systems**, scheduling 40+ weekly sessions and maintaining on-time delivery across semester milestones.
- Standardized workflow management processes using **Jira task boards and milestone tracking**, resolving 25+ scheduling conflicts and ensuring completion of academic support initiatives within defined timelines.
- Evaluated student performance metrics and attendance trends using structured data analysis in **Excel**, informing resource allocation decisions across 3 academic support programs.

KPMG | Business Analyst | Pune, India | Nov 2020 – May 2022

- Automated financial reporting pipelines using **SQL and Python-based ETL workflows**, accelerating report generation cycles by 14 business days across 5 enterprise client engagements.
- Structured business requirements into **BRDs, Functional Specifications, and Acceptance Criteria**, aligning Finance, Risk, and Technology stakeholders to deliver 18 approved change requests within scheduled release windows.
- Programmed data governance controls aligned with **GDPR and CCPA compliance frameworks**, strengthening data validation processes across 12 reporting datasets supporting regulated financial disclosures.
- Designed interactive **Tableau dashboards** integrating ERP and transaction data, enabling real-time monitoring of 35+ KPIs for senior audit and advisory teams.
- Facilitated budgeting and milestone tracking through **Jira sprint planning and resource allocation logs**, coordinating 4 cross-functional workstreams valued at 200K+ in advisory scope.
- Presented analytical findings using structured variance analysis and financial modeling in **Advanced Excel**, influencing approval of 9 operational improvement initiatives across client portfolios.

TECHNICAL SKILLS		
●	Data Analysis & BI: SQL, Python (Pandas, NumPy), R, Advanced Excel (Pivot Tables, VLOOKUP), Tableau, Power BI, Looker	
●	Marketing Analytics: Campaign Performance Analysis, A/B & Multivariate Testing, Customer Segmentation, Marketing ROI	
●	CRM & Reporting Tools: Salesforce CRM, Google Data Studio, Dashboard Development, KPI Reporting	
●	Business Analysis & Strategy: Requirements Gathering, User Stories, Revenue Growth Planning, Portfolio Management	
●	Project Management & Delivery: Project Scheduling, Scope Tracking, Resource Coordination, Risk & Issue Tracking, RAID Logs, Budget Monitoring, Status Reporting	
●	Project Tools & Collaboration: JIRA, Confluence, Asana, Trello, Microsoft Project, Smartsheet, Slack, Microsoft Teams	
●	Governance & Documentation: Project Documentation, Change Management, UAT Coordination, SOP Development	
●	Data-Driven Decision Making: Trend Analysis, Performance Metrics Tracking, Executive Reporting	

EDUCATION		
Illinois Institute of Technology, Chicago, US - Master's in Information Technology Management GPA: 3.8/4.0		2024
Sinhgad Institute of Technology, Pune, India - Bachelor of Engineering GPA: 3.6/4.0		2022

CERTIFICATIONS	
●	Scrum Alliance Certified Scrum Master (CSM)
●	Agile Project Management
●	Google Data Analytics
