EDUCATION

Florida Gulf Coast University Master of Business Administration (MBA)	Fort Myers, FL May 2025
Florida Gulf Coast University B.A., Psychology, Summa Cum Laude President's list (2020-2022) Honors Program	Fort Myers, FL May 2022

EXPERIENCE

University of North Florida & Florida Gulf Coast University <i>Research Assistant, Interdisciplinary Research</i>	Fort Myers, FL January 2024 – Present
• Conducting human coding of extremist online posts to analyze conspiracy theory use. • Comparing manual coding results to machine learning-based text analysis models. • Collaborating with the lead investigator from UNF and a professor from FGCU to assess significance quest appeals and in-group/out-group statements. • Analyzing a dataset of 4,000+ posts; coding 500+ per group for qualitative analysis. • Assisting in developing statistical models in R for automated text analysis and comparison to human-coded data.	
Florida Gulf Coast University <i>Research Assistant (paid), Department of Psychology</i>	Fort Myers, FL January 2021 – December 2023
• Led research on the frustration-aggression hypothesis, assisting in IRB preparation, literature review, and study design to ensure compliance with ethical research standards. • Developed and programmed a Qualtrics survey with validated questionnaires and cognitive tasks. • Led participant recruitment, data collection, and experimental sessions, overseeing interactive cognitive tasks and behavioral assessments. • Managed and organized participant data for statistical analysis (SPSS, R), ensuring accuracy in survey responses and cognitive task results. • Supervised and trained two research assistants after initially working as the sole RA, ensuring procedural consistency in data collection and methodology.	
Florida Gulf Coast University <i>Teaching Assistant (paid), Department of Psychology</i>	Fort Myers, FL January 2022 – January 2023
• Served as a Teaching Assistant for two courses: Social Cognition and Psychology of Terrorism, where I designed and delivered PowerPoint lectures for each chapter, synthesizing key concepts and course materials. • Developed discussion questions for weekly class engagement. • Created assessments including quizzes, exams, and in-class activities to reinforce course content. • Facilitated group discussions and led class-wide discussions, encouraging critical thinking and participation. • Provided student support inside and outside of class, assisting with coursework, and academic concerns.	

Skills

• Research Methods	• Statistical Modeling	• Experimental & Survey Design
• Data Analysis (SPSS, R, Excel)	• Project Management	• IRB Protocol
	• Teaching & Mentorship
