

Ayse Betty Eksi

Software Development Engineer in Test

Atlanta, GA, USA | aysebettyeksi@gmail.com | [+1 \(470\) 939-9155](tel:+14709399155) | [linkedin.com/in/abettyeksi](https://www.linkedin.com/in/abettyeksi)

PROFESSIONAL SUMMARY

ISTQB-certified QA Automation Engineer with 5+ years of experience in manual and automated testing, specializing in Selenium WebDriver, API testing, and scalable automation frameworks. Adept in building maintainable test environments, conducting backend validations, and executing exploratory and usability testing in Agile/Scrum environments, ensuring test traceability and alignment with business needs.

Proficient in backend validation using Postman and Rest Assured, and in maintaining robust CI/CD pipelines using Jenkins, Docker, and Git/GitHub. Experienced in SDLC, STLC, test strategy development, and defect management. Known for strong communication and adaptability skills, contributing to enhanced software quality, reduced defects, and improved testing efficiency.

TECHNICAL SKILLS

Test Automation & Frameworks: Selenium, Selenium Grid, JUnit, TestNG, Cucumber BDD, Playwright

Testing Types: Manual, Automation, Functional, Regression, Smoke, Cross-browser, Performance, End-to-End

Programming & Scripting Languages: Java, JavaScript, HTML, CSS, Python, Lambda Expressions

API & Database: Postman, Rest Assured, JDBC, PostgreSQL, SQL (Google Cloud)

CI/CD & DevOps Tools: Jenkins, Docker, Git/GitHub, Maven, CI/CD Pipelines

Test Reporting: Allure, Extent Report, Spark, and Cucumber Report

Project Management & Agile Tools: JIRA-Xray, ClickUp, Agile/Scrum, SDLC, STLC

Development Environments: IntelliJ IDEA, Node.js, Visual Studio Code, Eclipse, PyCharm

AI & Testing Optimization: GitHub Copilot, Tabnine, Perplexity, Cursor

PROFESSIONAL EXPERIENCE

Software Engineer in Test (SET)

Richmond College – *Learning Management System* | June 2023 – Present

- Reviewed **acceptance criteria** and collaborated with **stakeholders** to identify and refine **testable requirements** for the LMS platform.
- Designed and executed **functional test scenarios** using **equivalence partitioning**, **boundary value analysis**, and **decision tables**, mapped to the **traceability matrix** to ensure full test coverage.
- Built and maintained a **Java - Selenium - Cucumber BDD** framework using **Page Object Model (POM)**, reducing maintenance time by **25%** and improving framework scalability.
- Automated **API testing** with **REST Assured** and **Postman** to validate **backend functionality** and boost reliability.
- Created reusable **API Helper** classes and used **Lombok** for **POJO classes**, improving maintainability and reducing overhead.
- Integrated automation into **CI/CD pipelines** using **Jenkins**, reducing deployment time by **30%** and enhancing test cycles.
- Managed test cases in **Jira-Xray**, ensuring **full test coverage** aligned with **business objectives**, and maintained **version control** via **Git/GitHub** within **Agile teams**.
- Participated in **UAT sessions** and collaborated closely with developers and product owners during **Agile sprints** to accelerate feedback and resolution cycles.

Software Quality Assurance Automation Engineer

Rainpark Solutions – *Global Property Projects* | July 2021 – April 2023

- Developed and maintained a robust **Java - Selenium WebDriver** framework for **regression** and **end-to-end testing**, automating workflows to reduce manual effort and enhance **test scalability**.
- Implemented **data-driven testing** using **Apache POI** for **Excel-based** test data and **Cucumber Scenario Outline** and **DataTable**, improving **reusability** and **maintainability** of test cases.
- Performed **database validation** using **PostgreSQL** to ensure **accuracy, consistency, and reliability** of backend transactions.
- Conducted **cross-browser testing** using **Selenium Grid**, reducing UI-related bugs by **30%** across **Chrome, Firefox, and Edge** environments.
- Performed **performance testing** with **JMeter**, identifying and resolving **system bottlenecks** under **high-load conditions**.
- Participated in **Agile ceremonies**, including **sprint planning, backlog grooming, daily stand-ups, and retrospectives**, contributing to a **20%** improvement in **team collaboration** and **delivery efficiency**.
- Stabilized **test environments** using **Docker** and managed **test execution** and **defect tracking** via **JIRA**, ensuring consistent execution and full **sprint alignment**.

Software Automation Test Engineer (QA Analyst)

Talentech Solutions – *HubComfy E-Commerce* | November 2019 – June 2021

- Contributed to **test strategy** and **test plan** development for critical **e-commerce workflows**, including product listings, cart, checkout, payment processing, and order management.
- Built a **modular automation framework** with **TestNG, Java, Selenium WebDriver, and Maven**, improving **scalability** and **maintainability** of **regression suites**.
- Designed and executed **regression, end-to-end, and functional tests**, resulting in a **25%** reduction in **post-release defects**.
- Implemented **parallel test execution** using **TestNG** and **Maven Surefire Plugin**, reducing total test run time by **30%**.
- Conducted diverse testing types, including **smoke testing** for build stability, **exploratory testing** to uncover edge case defects, and **monkey testing** for stress validation under unpredictable user behavior.
- Collaborated closely with **developers** and **product stakeholders** to refine **testing objectives** and align **QA efforts** with **Agile delivery cycles**.

EDUCATION

Master's Degree & Research Assistant

Beder University | Graduated with Honors

Key Skills: Data Analysis, Research & Reasoning, Attention to Detail, Critical Thinking, Effective Communication

Bachelor's Degree in Mathematics

Bolu Abant Izzet Baysal University | Graduated with Honors

Key Skills: Analytical Thinking, Problem Solving, Statistics, Computer Science, Organizational Skills, Teamwork

CERTIFICATIONS

ISTQB Certified Tester (CTFL)

JavaScript and Playwright Automation – *Cydeo*

Artificial Intelligence and Technologies – *TechPro Education*

Prompt Engineering – *Richmond College*

SQL on Google Cloud – *Bilisim & Kadin Academy*

WORK AUTHORIZATION

Green Card Holder – Authorized to work in the U.S. without sponsorship.
