

BHARATH APPASANI

Business Data Analyst

+1 (901)606-8001 | bharathappasani1234@gmail.com | [LinkedIn](#)

Summary

Analytical and results-driven **Business Analyst** with nearly 4 years of expertise in **data analytics, business intelligence, and cloud-based reporting solutions**. Skilled in translating business requirements into actionable insights through **data modeling, visualization, and advanced analytics**. Proficient in using modern BI and data platforms such as **Power BI, Snowflake, Azure Synapse, and SQL Server** to deliver data-driven decision support. Experienced in **ETL development, process automation, and KPI framework design**, enabling organizations to optimize operations and improve data visibility. Adept at **Python-based data analysis**, leveraging **AI and predictive analytics** to identify business trends and opportunities. Strong collaborator with cross-functional teams, applying **Agile and DataOps practices** to deliver scalable, high-quality analytical solutions.

Core Skills

BI & Analytics Tools	Power BI, Tableau, Looker, Microsoft Fabric
Cloud & Data Platforms	Azure Synapse Analytics, Snowflake, AWS Redshift, Google BigQuery
ETL & Data Integration	Azure Data Factory, SSIS, Databricks, Alteryx
Programming & Scripting	Python (Pandas, NumPy, Matplotlib), SQL, DAX, Power Query (M)
Databases	SQL Server, PostgreSQL, Oracle, MySQL
Data Engineering Concepts	Data Modeling, Data Warehousing, Data Governance, Metadata Management
Reporting & Visualization	KPI Dashboards, Drill-through Reports, Forecasting Models
Methodologies & Tools	Agile, Scrum, JIRA, Confluence, Git
AI & Automation	Azure Machine Learning, Power Automate, Cognitive Services

Work Experience

Business Data Analyst | Prudential Financial – USA

Jan 2024 – Present

- Collaborate with business stakeholders to capture requirements and translate them into **data models, KPIs, and interactive dashboards**.
- Develop and optimize **Power BI dashboards** integrated with **Snowflake** and **Azure Synapse** for real-time analytics and performance monitoring.
- Conduct **data profiling, validation, and transformation** using **Python** and **SQL** for analytical consistency.
- Work with **data engineering teams** to streamline ETL pipelines through **Azure Data Factory** and **Databricks notebooks**.
- Perform **predictive and trend analysis** to identify opportunities for cost optimization and revenue growth.
- Implement **data governance and metadata documentation** to ensure compliance and data traceability.
- Partner with cross-functional teams in an **Agile environment** to deliver business intelligence solutions aligned with strategic goals.

Environment: Power BI, Snowflake, Azure Data Factory, Databricks, SQL Server, Python, JIRA, Agile

Business Intelligence Analyst | Nexova – India

Aug 2020 – Apr 2022

- Designed and implemented **end-to-end BI solutions** using **Power BI** and **Tableau** for performance and operational reporting.
- Developed **ETL workflows** in **SSIS** and **Azure Data Factory** for data integration from multiple enterprise systems.
- Created **optimized data models and DAX calculations** to enhance report interactivity and speed.
- Conducted **data audits and validations**, ensuring data consistency and accuracy across reporting layers.
- Automated recurring reports and implemented **self-service analytics** for business users.
- Supported **ad hoc data requests**, business process documentation, and system enhancements under Agile sprints.

Environment: Power BI, Tableau, SSIS, SQL Server, Azure Data Factory, Excel, Python, Agile

EDUCATION:

Master of Science in Information Systems

May 2022 – Dec 2023

University of Memphis, Memphis, Tennessee, USA

Bachelor of Engineering in Computer Science & Engineering

July 2017 – Aug 2021

Vidya Jyothi Institute of Technology, Hyderabad, Telangana, India
