

LINGAMPALLY CHAITANYA

BUSINESS ANALYST

chaitanyasree928@gmail.com | +1 (515) 567-1491 | www.linkedin.com/in/lingampallychaitanya/

PROFESSIONAL SUMMARY

Results-driven Business Analyst with 2+ years of experience bridging business requirements and technical solutions. Expertise in data analysis, process improvement, and stakeholder management with proven ability to deliver measurable business outcomes. Proficient in SQL, Power BI, and data visualization tools with hands-on experience in requirements gathering, KPI development, and cross-functional collaboration. Currently advancing Salesforce expertise through targeted learning initiatives. Strong foundation in Agile methodologies and project management practices from graduate studies and practical application.

TECHNICAL SKILLS

- **Data Analysis & Visualization:** SQL, Power BI, Tableau, Excel, Google Sheets
- **Business Intelligence:** KPI Development, Dashboard Creation, Reporting Automation
- **Project Management:** Agile Methodologies, Requirements Gathering, Process Documentation
- **Business Analysis Skills:** Requirements Gathering & Analysis, Business Process Mapping & Optimization, Stakeholder Management & Collaboration, Gap Analysis & Root Cause Analysis, User Acceptance Testing & Quality Assurance

PROFESSIONAL EXPERIENCE

BUSINESS ANALYST

OCT 2024 - CURRENT

Nissan Motor – USA

Market Research & Customer Analytics:

- Collaborated with marketing and product teams to analyze vehicle feature preferences and customer feedback data, conducting market research and competitive analysis that improved vehicle configurator engagement and reduced bounce rates by 18%
- Analyzed customer journey data across dealership touchpoints and digital platforms to identify pain points in the vehicle purchase process, creating funnel visualizations that led to a 10% improvement in lead-to-sale conversion rates.

Database & Advanced Analytics:

- Leveraged MySQL and Python to analyze customer satisfaction surveys, service records, and vehicle usage patterns, delivering insights that informed product development decisions and marketing strategies; findings helped address the three primary factors contributing to customer attrition in the automotive sector.

Predictive Modeling & Stakeholder Management:

- Built predictive analytics models using machine learning to forecast vehicle demand, created Power BI dashboards for stakeholders, and facilitated agile cross-functional teams to optimize business processes through data-driven insights.

BUSINESS ANALYST

MAY 2021 - AUG 2023

Google (via Concentrix) – Hyderabad, India

Requirements & Process Analysis:

- Orchestrated requirements gathering for 1,500+ daily business processes, achieving 98% accuracy through systematic analysis
- Spearheaded business process mapping, identifying gaps and inefficiencies, resulting in streamlined workflows

Database & Testing:

- Developed database queries using SQL, enhancing data retrieval efficiency by 25%
- Created comprehensive test scripts and executed system testing protocols, ensuring 100% compliance
- Performed user acceptance testing, minimizing production issues and maximizing reliability

Analytics & KPIs:

- Engineered KPI dashboards using Power BI and database integration, ranking top 10% of analysts
- Executed root-cause analysis on 200+ cases monthly, generating actionable insights for policy teams
- Transformed complex datasets into reports, reducing turnaround time by 15%.

Collaboration & Training:

- Facilitated cross-functional collaboration demonstrating superior communication and problem-solving skills

EDUCATION

Master of Science in IT Management (Business Administration)

JAN 2024 - MAY 2025

Belhaven University – Mississippi, USA

- Coursework: Agile Project Management, Business Processes Analysis, Database Design

- Focus: Data analysis, statistical modeling, problem-solving methodologies

ACHIEVEMENTS

- Top 10% Performance at Google/Concentrix for accuracy and problem-solving
- Process Innovation: Created KPI dashboards reducing reporting time by 15%
- Change Leadership: Led improvements resulting in 2 policy updates
- Quality Excellence: Maintained 98% accuracy processing 1,500+ daily cases
- Training Impact: Training materials improved onboarding by 40%
