EXPERIENCE

Dental Smiles Group, IL | Mar 2021 - Current

Business Analyst

As a Business Analyst, I worked with stakeholders in optimizing operational process within chain of dental practices focusing improving productivity and activity through practice management, regulatory compliance, gathering and structuring policies which led to a 20% increase in profits ultimately reaching company goals of packed practices.

My responsibilities include:

- Working in a team environment of 4 with Agile methodology, transformed complex concepts into simple, elegant, and approachable experiences, services, and products.
- Developed and implemented tailored solutions to enhance practice management, patient satisfaction, regulatory compliances which led to overall increase in net profits by 20%
- Collaborated closely with doctors, and executives to further understand practice functional and non-functionals requirements to streamline operations mitigate risks throughout course of project.
- Negotiated with vendors, contracts, and optimized resource allocation, contributing to significant financial savings.
- KPIs are used to track and measure practice success and statistics for various areas.
- Developing effective coaching on industry best practices. These include client interaction, soft skills, work product usability and aesthetics.

Cigna, IL | Jan 2020 – Feb 2021**Business Analyst**

Assisted with planning and execution of medical equipment integration project and gaining exposure to the healthcare technology sector. Apprentice interfacing with internal/external clients, gathering and structuring requirements, and implementing initiatives which lead to cost-savings and improved process efficiencies.

My responsibilities included:

- Facilitated the collection and documentation of business requirements for seamlessly integrating new medical equipment into existing private practices, ensuring compliance and operational efficiency.
- Executed comprehensive market research to assess the latest advancements in medical technology, providing pivotal insights to guide the acquisition and integration strategy.
- Utilized Power BI and Microsoft Excel for advanced data visualization and ETL processes, delivering actionable insights that informed strategic decisions in medical equipment integration and patient data management.
- Developed and enhanced user manuals and documentation for newly integrated medical equipment, significantly improving user adoption and satisfaction rates.
- Analyzed and monitored key performance indicators (KPIs) to pinpoint areas for improvement, contributing to the project's success by implementing data-driven enhancements.
- Conducted in-depth analysis including cost/benefit, impact, GAP, risk, and SWOT analyses, identifying strategic opportunities, and mitigating potential threats to project success.

Exclusive RX Inc | Feb 2019 - Jun 2019**System Analyst – Intern**

I had the opportunity to contribute to the integration of new pharmacy systems, gaining hands-on experience in systems analysis with some business analyst responsibilities.

My responsibilities included:

- Knowledge of pharmaceutical administrative operations Exercising Agile methodology and GAP analysis, identifying areas for improvement and alignment with business goals, and submitting projects in time for testing in SDLC
- Worked closely with software vendors in an agile framework to ensure quick adaption to changing requirements and priorities.
