SUMMARY

A dedicated and adaptable professional student with comprehensive knowledge in application development, configuration management, and database management. Seeking to contribute my expertise to a dynamic team. Known for effective communication skills and a collaborative mindset, I am poised to support and enhance organizational goals.

SKILLS

- Microsoft .Net Technologies
- My SQL
- Appian
- Maria DB
- Oracle Apex
- Ms Excel
- Data Analysis
- Data Mining
- Data Cleaning
- Web Scrapping
- Data Visualization
- Data Integration
- Machine Learning
- Python
- Tableau
- Pandas
- NumPy
- Matplotlib
- Seaborn
- Scikit-learn
- Jupyter
- Google Colab
- Visual Studio
- Azure Cloud Services
- JFrog Repository
- Bit Bucket
- TFS

EXPERIENCE

Software Engineer, COFORGE, February 2022-July 2023

Bangalore, Karnataka

- Streamlined transcript creation for US university applicants, reducing processing time
- Improved database retrieval efficiency by 15% through query rules and entity application
- Led stakeholder meetings to review project progress and foster collaboration
- Identified user requirements and implemented application improvements, increasing user satisfaction by 30%.

Software Engineer, Trigent Software Ltd. - IT Services Division, July 2021-February 2022

Bangalore, Karnataka

- Oversaw centralized management of 'Party Master and Authentication' dataset, navigating challenges to ensure seamless coordination across diverse party types and services

- Analyzed client requirements to ensure project alignment, leading to enhanced project efficiency and effectiveness
- Collaborated with software developers on program design and testing, fostering a team environment that increased productivity by 15%.

EDUCATION AND TRAINING

Master of Science

Management Information Systems (Stem), Iowa State University, Ames IA Expected in December 2024

Bachelor of Science

Electronics, And Communications Engineering, Sathyabama University, Chennai May 2019

CERTIFICATIONS

- Executed Data Science and Data Analysis Job Simulation at British Airways.
- Completed Python for Data Science with IBM.
- Attained the Appian Certified Associate Developer certification.

AADEMIC PROJECTS

- **Customer Review Data Analysis and Scraping Specialist**
- Utilized advanced data preprocessing, machine learning, and Python libraries to analyze 540,000 British Airways customer reviews.
- Conducted exploratory data analysis (EDA) to uncover insights and trends within large datasets, enabling informed decision-making and strategic planning initiatives.
- **Netflix Viewer Analytics**
- Cleaned and pre-processed raw Netflix user data to address inconsistencies, missing values, and outliers, ensuring data quality and reliability for downstream analysis.
- Designed and created visually appealing and informative data visualizations using tools such as Matplotlib, Seaborn, Pandas, Numpy.
- Conducted exploratory data visualization to uncover patterns, outliers, and trends within the dataset.
