Professional Summary

Highly organized professional with nearly 2 years experience as a healthcare data analyst seeks a data-focused role. Proficient in using Excel, SQL, and Alteryx for analyzing and cleaning data. Proven ability to provide insights that drive business decisions and collaborate with teams to streamline processes. Aiming to bring my analytical skills and tech experience to a position where they can add value while allowing opportunities for growth.

Work Experience

Junior Web Developer

PeopleShores-Remote

April 2024 to June 2025

- Trained as an apprentice to assist Accenture's forward engineering team in converting legacy COBOL code into Python an internal LLM.
- Reviewed business rule documentation and mapped it to updated Python Workflows to maintain logic accuracy during modernization.
- Collaborated with developers to validate LLM outputs and flag inconsistencies.

Healthcare Data Analyst

GalaxE.Solutions-Remote

February 2022 to September 2023

- Generated reports using SQL, Excel, and Alteryx to identify trends within HEDIS performance measures and provide insights to management, helping drive business decisions.
- Executed data cleaning strategies to improve the quality and accuracy of data.
- Collaborated with team members to create a new process for streamlining report verification, resulting in a 20% decrease in completion time.
- Tracked and analyzed healthcare provider inquiries to identify patterns and improve response processes, increasing satisfaction by 15%.

Receptionist

TemPositions/The Bowery Mission-New York, NY

March 2021 to July 2021

- Managed a multi-line phone system, answering calls, transferring when needed, and passing messages to the appropriate departments.
- Streamlined the intake process by creating an organized front desk structure, resulting in a 50% decrease in preparation time for ambassadors.
- Handled mail and deliveries.
- Helped with ordering, setting up and serving lunch as needed.
- Scheduled meetings for guest with social workers.

Concierge Representative

Tempositions/UFT-New York, NY

February 2020 to December 2020

- Managed 150+ high-volume member inquiries via phone with an average satisfaction rate of 95%.
- Educated myself with company knowledge from level 2 departments to assist more callers without needing to transfer, resulting in a 10% wait time reduction.
- Utilized Salesforce CRM to access member accounts.

Call Center Operator

NYC 311-Brooklyn, NY

May 2019 to December 2019

- Successfully maintained knowledge of the company's policies and procedures during a 2-week training period.
- Managed an average of 80 calls daily and achieved scores of 90% and higher on call quality assurance tests.
- Used an internal company system to document customer information.
- Ensured confidentiality and privacy of caller information by following strict data protection protocols.

Customer Support/CRM Onboarding Specialist

amoCRM-Long Island City, NY

July 2017 to February 2018

- Consistently exceeded the goal of scheduling 2 demos daily for potential customers leading to a 5% increase in sales.
- Hosted live Zoom presentations, helping potential customers become more educated about the CRM system.
- Became promoted within a 6-month timeframe to provide all onboarding sessions from the NY office for all first-time paying customers.
- Collaborated with the support team, tracking data that identified downwards trends, resulting in a 25% reduction in onboarding time.
