

Abhinay Inumarthi

Data Analyst

Memphis, TN | +1 (901) 648 5344 | abhinayinumarthi625@gmail.com | [LinkedIn](#)

SUMMARY

Data Analyst with around 6 years of hands-on experience delivering end-to-end data analysis, transforming complex datasets into actionable insights that drive strategic and operational decisions. Strong expertise in Python, SQL, and SAS for data extraction, automation, advanced analysis, and building scalable analytical solutions across large enterprise datasets. Proven experience in designing, validating, and supporting ETL workflows to ensure data accuracy, consistency, and reliability across multiple business systems. Well-versed in developing interactive dashboards, KPI frameworks, and executive-level reports using Power BI and Tableau to improve visibility and reduce reporting turnaround time. Expert in cooperating with cross-functional stakeholders to gather requirements, translate analytical findings into business insights, and support continuous process improvement initiatives.

SKILLS

Programming & Query Languages & Methodologies: Python, SQL, PL/SQL, R, SAS, SDLC, Agile, Waterfall

Data Analysis & Statistics: Data Cleaning, Data Wrangling, Exploratory Data Analysis (EDA), Statistical Analysis, Predictive Analysis, Feature Engineering, Data Mining

Analytics & ML Libraries: NumPy, Pandas, SciPy, Scikit-learn, TensorFlow, PySpark, Matplotlib, Seaborn, ggplot2

Data Visualization & Reporting: Tableau, Power BI, Advanced MS Excel (Pivot Tables, VLOOKUP, HLOOKUP), KPI Dashboards, Ad-hoc Reporting

Databases & Data Management: MySQL, PostgreSQL, SQL Server, Oracle, Data Warehousing, Data Modeling, Data Architecture

Cloud & Analytics Platforms: AWS, Azure, Google Cloud Platform (GCP)

Development & Version Control Tools: Git, GitHub, GitLab, SVN, Visual Studio Code, PyCharm, Jupyter Notebook

Business & Professional Skills: Analytical Thinking, Problem Solving, Decision-Making, Communication, Presentation Skills

EXPERIENCE

Simmons Bank

USA

Sr. Data Analyst

Jan 2025 - Present

- Led enterprise-level data analysis initiatives using Python, SQL, and PySpark to support risk, finance, and operations teams, improving decision accuracy by 22%.
- Designed and optimized data models and data architecture across SQL Server and Oracle environments, reducing query execution time by 35% for high-volume reporting.
- Created Tableau dashboards to deliver actionable insights, enabling faster and more informed business decision-making.
- Conducted exploratory data analysis and predictive analysis using Scikit-learn and TensorFlow, improving forecasting reliability by 18% across key banking indicators.
- Implemented data cleansing and validation frameworks within ETL workflows, increasing data quality scores by 30% across enterprise data warehouses.
- Leveraged AWS analytics platforms to enable scalable data processing and advanced reporting while reducing structure dependency.

Centene

USA

Data Analyst

Jun 2023 - Dec 2024

- Performed large-scale data analysis using SQL, and SAS across healthcare datasets exceeding 20M+ records, supporting clinical and operational reporting.
- Developed interactive Power BI dashboards to track KPIs and operational metrics, reducing reporting turnaround time by 40%.
- Executed data wrangling, feature engineering, and EDA to identify utilization trends and cost drivers, contributing to 15% improvement in operational efficiency.
- Maintained ETL workflows and data warehousing processes, ensuring data consistency and reliability across PostgreSQL and SQL Server systems.
- Applied data validation and reconciliation techniques to resolve data discrepancies, improving audit readiness and reducing rework.
- Operated Git and GitHub for version control and collaborative development, improving code reliability and deployment efficiency.

Mindtree

India

Associate Data Analyst

Jan 2019 - Nov 2021

- Supported client-facing data analytics projects using Python, and SQL, delivering insights across finance and operations datasets with data accuracy.
- Led data cleaning, data mining, and exploratory analysis to identify trends and anomalies, reducing manual analysis effort by 30%.
- Built automated Excel reports and KPI dashboards using Pivot Tables and advanced formulas, improving reporting efficiency for client teams by 35%.
- Assisted in data modeling and data warehousing initiatives across MySQL and Oracle databases, improving downstream reporting performance by 20%.
- Participated in Agile based project delivery, collaborating with senior analysts and developers to meet client milestones consistently.

EDUCATION

Master of Science in Data Science

University of Memphis

May 2023

Memphis, TN

Bachelor of Engineering in Mechanical Engineering

Institute of Infrastructure, Technology, Research and Management (IITRAM)

May 2019

Gujarat, India
