Professional Summary:

Data Science and Data Analytics graduate with hands-on experience in SQL, Python, data modeling, and business intelligence reporting. Strong background in data validation, trend analysis, dashboard development, and enterprise system support. Experienced in working in fast-paced production environments, supporting enterprise clients, and delivering data-driven insights for operational and business decision-making.

Education:

Florida Atlantic University, USA – Master's in Data Science and Data Analytics (Jan 2024 – Dec 2025) | GPA: 3.6

Osmania University, India – B.Sc. Statistics (Jun 2018 – Aug 2021) | 82.7%

PROFESSIONAL EXPERIENCE:

Upgrade Engineer — Dell EMC Storage (Wipro, India)

Dec 2021 – Sep 2023

- Managed enterprise storage infrastructure, including **Symmetrix, VMAX 3.0, VMAX AFA, and PowerMax** systems.
- Performed **system performance analysis, monitoring, and issue troubleshooting** in production environments.
- Executed **system upgrades, patch deployments, and capacity planning** for enterprise clients.
- Worked with global enterprise customers including **Citi Group, T-Mobile, Capgemini, HCL, and Caterpillar**.
- Analyzed system alerts and **severity-based error codes** to ensure system uptime and SLA compliance.
- Consistently achieved the **highest productivity rating for 12 consecutive months**.
- Collaborated with cross-functional teams to resolve infrastructure and performance issues.

INTERNSHIP EXPERIENCE

Data Analytics Intern — IT Services Firm (India)

Jan 2021 – Jun 2021

- Analyzed structured datasets using **SQL queries and Python data processing libraries**.
- Identified business trends and created analytical reports for stakeholders.
- Built dashboards to support **data-driven business decision-making**.
- Worked with business teams to convert data insights into actionable strategies.

Business Analytics Intern — Consulting Organization (India)

Jun 2020 – Dec 2020

- Performed **Exploratory Data Analysis (EDA)** on sales and customer datasets.
- Supported forecasting and performance reporting using **Python and Advanced Excel**.
- Generated business insights and presented findings to non-technical stakeholders.

Academic Projects:

Customer Churn Prediction — Machine Learning Project:

- Developed predictive models using **Python and Scikit-Learn**.
- Performed **data preprocessing, feature engineering, and model evaluation**.
- Improved model performance using hyperparameter tuning techniques.

E-Commerce Sales Analysis Dashboard:

- Wrote complex **SQL queries** to extract and transform transactional data.
- Designed dashboards to analyze:
 - Revenue trends
 - Customer purchasing behavior
 - Sales performance KPIs

TECHNICAL SKILLS:

Programming & Data Analysis

- Python (Pandas, NumPy, Matplotlib, Scikit-Learn)
- SQL (Joins, CTEs, Window Functions, Query Optimization)
- R (Statistical Analysis, Data Modeling)
- SAS (Data Processing & Statistical Analysis)

Databases

- SQL Server
- MySQL
- Oracle SQL
- PostgreSQL
- MongoDB

Data Visualization & BI

- Power BI (Data Modeling, DAX, Dashboard Development)
- Advanced Microsoft Excel (Pivot Tables, XLOOKUP, Power Query, Data Cleaning, Macros Basics)

Systems & Platforms

- Unix / Linux
- Windows Server Environment
- Enterprise Storage Systems (Dell EMC PowerMax, VMAX, Symmetrix)

Data & Analytics Concepts

- Exploratory Data Analysis (EDA)
- Feature Engineering
- Data Cleaning & Transformation
- Statistical Analysis
- Predictive Modeling
- Business Reporting & KPI Tracking

Hobbies:

Music, Travelling, Physical Activities, Web Browsing.
