

SUSHMA SREE KANDIKONDA

Wixom, MI | +1 (570) 677-4325 | sushmasreek123@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

Dynamic Business Analytics Professional with a Master's degree and 3+ years of experience leveraging SQL, Python, and Power BI to drive data-centric solutions. Expert in transforming raw datasets into high-impact BI dashboards and predictive models that optimize operational efficiency. Proven success in reducing data latency by 35% and delivering actionable insights for Fortune 500 stakeholders in the telecom and aviation sectors.

TECHNICAL SKILLS

- Languages & Scripts:** Python (Pandas, NumPy, Scikit-learn, SciPy), SQL (T-SQL, PL/SQL), R, VBA, PySpark.
- Data Visualization & BI:** Power BI (DAX, Power Query), Tableau, Looker, MS Excel (Advanced Modeling, Solver).
- Databases & Warehousing:** Snowflake, AWS Redshift, Google BigQuery, PostgreSQL, MS SQL Server, Teradata, MongoDB.
- Cloud & Big Data:** AWS (S3, EC2, Glue), GCP, Databricks, Apache Spark, Hive, ETL Pipeline Development.
- Analytics & ML:** Regression, Classification, Clustering, Time Series Forecasting, A/B Testing, Statistical Significance, Data Mining.

PROFESSIONAL EXPERIENCE

AT&T | Data Analyst & BI Intern | Remote, USA | Jan 2024 – Jan 2026

- Engineered automated ETL pipelines using **Python and SQL** to streamline network reliability workflows, successfully **reducing ad-hoc data preparation time by 30%** for engineering teams.
- Analyzed multi-year geospatial datasets to identify high-risk outage clusters, enabling leadership to **prioritize \$2M+ in maintenance spend** across 40+ critical service regions.
- Designed interactive **Power BI dashboards** utilizing complex DAX measures to track real-time KPIs, improving executive response times to network failures by approximately 15% YoY.
- Executed **A/B testing and hypothesis validation** on operational process changes, providing statistically significant recommendations that enhanced service restoration efficiency for regional field technicians.

Maxgen Technologies | Data Analyst | Hyderabad, India | August 2022 – July 2023

- Managed and queried **150M+ airline records** within Teradata environments to generate mission-critical reports on revenue tracking, flight scheduling, and global fleet operational performance.
- Optimized legacy **SQL scripts and indexing strategies**, resulting in a **35% reduction in query execution time** and significantly improving data availability for daily executive briefings.
- Developed comprehensive **data validation frameworks** to reconcile Teradata sources with BI outputs, ensuring 100% data integrity for high-stakes revenue and route performance metrics.
- Collaborated with cross-functional departments to translate business requirements into **automated Excel and SQL dashboards**, monitoring load factors and identifying underperforming flight routes.

SELECTED PROJECTS

Customer Churn Prediction (Machine Learning)

- Developed a predictive model using **Random Forest and Logistic Regression** in Python, achieving **88% accuracy** in identifying high-risk subscribers for targeted retention campaigns.
- Conducted **Feature Engineering and SHAP analysis** to pinpoint key churn drivers, allowing marketing teams to reduce customer attrition by an estimated 12% annually.

Sales Performance & Revenue Intelligence (Power BI)

- Architected an end-to-end **Power BI solution** integrating disparate data sources to visualize global sales KPIs, revenue trends, and regional performance across multiple fiscal quarters.
- Implemented **automated data refresh schedules** and row-level security, providing 50+ stakeholders with secure, real-time access to critical business intelligence for strategic planning.

EDUCATION

- Master of Science in Business Analytics** | University of Scranton, PA | **GPA: 3.8/4.0**
- Bachelor of Technology in ECE** | JNTU, Hyderabad, India

CERTIFICATIONS

- Microsoft Certified:** Power BI Data Analyst Associate (PL-300)
- Google Data Analytics** Professional Certificate
- Tableau Desktop Specialist** | **SQL for Data Science** (Coursera)
