

Dev Patel

New Jersey, NJ | 732-812-7181 | devpatel3852@gmail.com | [LinkedIn](#) | [GitHub](#)

SUMMARY

Front-end developer with expertise in React.js and Angular, proficient in JavaScript (ES6+), HTML5, CSS3, and Git. Applies data-driven problem solving and QA practices to build maintainable, high-performance UI components, seeking to contribute to scalable web applications in a collaborative agile environment.

EDUCATION

Rutgers University

B.S., Computer Science

May 2025

- **Achievements:** Dean's List

WORK EXPERIENCE

Whole Foods Market

May 2024 - Dec 2024

In Store Shopper

Metuchen, NJ

- Maintained and optimized operational workflows within a technology-driven environment, consistently meeting performance metrics for speed, accuracy, and order throughput.
- Applied problem-solving strategies to resolve technical and customer-facing issues in real-time, contributing to a 15% increase in customer satisfaction metrics through improved process efficiency and user experience.
- Implemented quality assurance protocols and performed data validation checks during order processing, maintaining a 98% accuracy rate and reducing error-related incidents to below 2%.

Handshake AI Fellowship – Project Hedgehog

Sep 2025 - Present

Participant

Remote

- Performed structured evaluation of large language model (LLM) outputs using Python scripts and predefined quality metrics, including factual accuracy, coherence, bias, and relevance.
- Annotated and labeled AI-generated datasets to support model training, validation, and performance benchmarking.
- Engineered and refined prompts and delivered targeted feedback to improve response quality and reduce model failure modes, with version-controlled deliverables managed in Git within an agile development framework.
- Operated within a scalable, task-based AI evaluation pipeline, adhering to strict data quality, consistency, and turnaround requirements using agile methodologies and Git for workflow management.

PROJECT EXPERIENCE

AI Chatbot (Angular) | <https://github.com/devpatel0713/AIChatbot>

Sep 2025

Personal Project

- Built an Angular-based AI chatbot enabling users to interact with OpenAI, Hugging Face, or a demo API through real-time prompt responses.
- Implemented Reactive Forms, RxJS, and HTTP Client for dynamic data handling, validation, and API communication.
- Designed a responsive, modular UI supporting provider switching, API key management, and offline demo mode.

Portfolio Website | <https://github.com/devpatel0713/Personal-Website>

Jan 2024 - Feb 2024

Personal Project

- Built a responsive personal portfolio website using HTML, CSS, and JavaScript to showcase projects and skills.
- Implemented a validated contact form and integrated the Google Sheets API to store submissions in real time.
- Applied front-end best practices including DOM manipulation, responsive design, and external API integration.

Calculator | <https://github.com/devpatel0713/calculator>

Apr 2024 - Jun 2024

Personal Project

- Built a Python GUI scientific calculator using Tkinter with standard and scientific modes.
- Implemented advanced mathematical functions using Python's math library.
- Designed modular, maintainable code with real-time input handling and validation.

SKILLS

- **Programming Languages:** Java, C, Python (Pandas, Matplotlib), HTML, CSS, JavaScript, R
- **Frameworks & Libraries:** React.JS, Angular, PyTorch
- **Tools & Platforms:** Git
- **Soft Skills:** Teamwork, Organized, Responsible, Problem-Solving, Multilingual, Object-Oriented Programming
