

Dhara Sheth

Data Scientist

Cleveland, OH | 216-356-0413 | dhara.s@myemailjob.com

Summary

- Data Scientist with 4+ years of experience leveraging data to drive strategic business decisions and enhance operational efficiency.
- Proficient in advanced analytics, machine learning, and statistical modeling, with a strong Python, R, SQL, and SAS background.
- Skilled in developing and deploying predictive models, conducting in-depth data analysis, and creating actionable insights from complex datasets.
- Adept at using visualization tools like Tableau and Power BI to communicate findings effectively.
- Experienced in working with cloud technologies (AWS, GCP) and big data platforms, with a proven track record of implementing solutions that improve data integrity and support business objectives.
- Strong problem-solving abilities with a keen eye for detail, committed to driving innovation through data-driven strategies.

Experience

Morgan Stanley, USA | Data Scientist

Aug 2023 - Current

- Contributed to Agile ceremonies, including sprint planning, reviews, and retrospectives to drive iterative development.
- Created and presented capacity planning reports using Python libraries like NumPy, Pandas, Matplotlib, SciPy, Seaborn, TensorFlow, and ggplot2.
- Collaborated with cross-functional teams to define project goals and requirements, delivering impactful data science solutions that address key business challenges.
- Developed interactive dashboards and visualizations using Tableau and Python to present complex data insights to technical and non-technical teams, driving informed decision-making.
- Designed and deployed innovative predictive modeling solutions focusing on time-series analysis, solving complex business problems, and providing actionable insights.
- Developed NLP with Deep Learning algorithms for analyzing text, improving over their existing dictionary-based approaches.
- Utilized AWS services, including SageMaker, Lambda, and S3, to develop and deploy scalable machine learning models.
- Collaborated with database administrators to optimize MySQL database performance, tuning query execution plans.
- Achieved a 40% reduction in model deployment time by optimizing integration processes and successfully deploying machine learning models into production.

Mike Sierra, India | Data Scientist

Jan 2019 - Dec 2021

- Executed comprehensive testing and validation of data science models and solutions before deployment, employing a structured and rigorous approach aligned with Waterfall methodologies.
- Spearheaded predictive modeling initiatives to support data-driven decision-making processes, including natural language processing.
- Developed and implemented data models using Logistic Regression, KNN, Random Forests, and Deep Neural Networks in Python, enhancing predictive accuracy.
- Presented data-driven insights that led to a 20% increased executive-level decision-making effectiveness.
- Leveraged critical thinking and problem-solving skills to address and resolve complex business challenges with innovative data science solutions.
- Improved knowledge transfer and methodology replicability by 15% through meticulous documentation practices.
- Developed complex SQL Server stored procedures and views, optimizing data retrieval processes for enhanced performance.
- Mentored junior team members, providing guidance and facilitating knowledge sharing to enhance team capability and performance.
- Implemented model optimization strategies, fine-tuning parameters and exploring algorithmic improvements to ensure continuous advancement in model performance.

Skills

Methodologies: SDLC, Agile, Waterfall

Language: Python, SQL, R, SAS

IDEs: Visual Studio Code, PyCharm, Jupyter Notebook

Statistical Methods: Hypothetical Testing, ANOVA, Time Series

Machine Learning/Deep Learning: Regression analysis, Bayesian Method, Decision Tree, Random Forests, Support Vector Machine, Neural Network, Sentiment Analysis, K-Means, KNN, Classification, SVM, Naive Bayes, Natural Language Processing (NLP), LLM, CNN, XGBoost, Machine Learning, Deep Learning

Packages: NumPy, Pandas, Matplotlib, SciPy, ggplot2, Scikit-Learn, PyTorch, TensorFlow, Keras, Spark

Visualization Tools: Tableau, Power BI, Microsoft Excel

Cloud Technologies: AWS, GCP, Azure

Database: MySQL, SQL Server, Oracle, MongoDB, Vector Database (Pinecone, ChromaDB), Graph Database (Neo4j)

Software/Other Skills: Jira, Data Cleaning, Data Wrangling, Critical Thinking, Communication Skills, Presentation Skills, Problem-solving, Decision-Making, EDA, Communication Skills, Databricks, Data Visualization, Predictive Analytics, Pattern Recognition, JMP, Data Integrity, Quantitative Data, Data Science, Statistics, Statistical Analysis, Data Analytics, Data Modeling, Big Query, Snowflake, SAP, Mathematics, Programming

Operating System: Windows, Linux

Certifications

IBM: Data Analyst Professional Certificate.

Education

Master in Information Systems | Cleveland State University, Cleveland, OH

Bachelor in Information Technology | Gujarat Technological University, Ahmedabad, Gujarat
