

NAGA DIVYA ADUSUMALLI

 +1 8067303959  nadusuma@ttu.edu  -<https://www.linkedin.com/in/divya-adusumalli-b8398618b>

Objective

Motivated finance with a passion for data analytics is seeking for entry level role where i can apply my strong analytical thinking and decision-making skills to meet client needs. Experienced BI Analyst over 3.5 years of IT experience in Informatica Power Center,SQL and Service Now tool. Eager to contribute team success through Communication, hardwork and excellent organisation skills.

Education

Texas Tech University, Lubbock

August 2023 – Dec 2024

Master of Science in the branch of computer science

GPA: 3.5/4

VVIT, Nambur

July 2017 – July 2021

Bachelors of Technology in the branch of Electrical and Electronics Engineering

GPA: 3.5/4

Technical Skills

Languages: C , Python, Shell Scripting, Java

Database : SQL/PLSQL,Oracle, My SQL

Visualisation Tools: PBI,OBIEE,ETL,Snow Flake,Looker,DBT, Informatica Cloud

Cloud Platform: AWS, Azure

Framework:Django, Springboot

Web Technologies: HTML,CSS,React JS, Java Script

Software & Tools: JIRA, Service Now tool, Devops, Docker, Git, Latex, Canva

Experience

WIPRO

August 2021 – 2024

Developer L2

- Having three years of experience within Wipro and supported for Ciena Client.I have worked as project engineer over 2 years. During my work experince in Wipro, i developed skills in a range of IT- related fields such as design, implementation and maintainance.I have also gained knowledge on how to colloborate with clients to comprehend their requirement and providing solutions

Projects

Ciena | ETL, PBI, OBIEE, SQL , SNOWFLAKE, LOOKER [linkedin](#)

Oct – July 2023

- * Ciena is a networking systems, services, and Software Company driven by a relentless pursuit of network innovation, with data flowing from one system to another and serving lot of business users with the right reporting environment facilitating decision support, BI/DW plays a very key role in Ciena's day to day business processes.
- * Design, Develop and Test ETL Mappings, Mappleets, Workflows using Informatica Power center
- * Extensively used Informatica transformations - Source qualifier, expression, joiner, filter, router, update strategy, union, sorter, and aggregator transformations to extract, transform and load the data from different sources into Oracle, Salesforce, and SQL Server.
- * Designed and developed interactive Power BI dashboards and reports to provide actionable insights for key business stakeholders, improving decision-making processes.
- * Integrated data from multiple sources, including SQL databases, Excel, and cloud-based platforms, into Power BI to create unified views of business metrics.
- * Worked on Looker, Snowflake access requests through Service Now Tool
- * Identify efficiencies and ways to improve design and development processes as process improvements per business requirements - JIRA process.
- * Monitoring production job run times to document SLA and troubleshoot and resolve production job failures and issues.
- * Have good analytical, problem solving and troubleshooting skills.
- * Worked with different teams collaborating on multiple issues on job failures.
- * Collaborated with system architects, and business users to understand business and industry requirements.
- * Extensive use of Informatica debugging in mappings by using session log files to trace the errors when loading into targets.
- * Automated ETL Workflows with python to reduce the manual effort, leading to more than 20 hours per week saved in manual workflows .

Student Dashboard

Jan – Apr 2024

- * Developed a Student Portal Using Django where students can make notes, notedown homeworks, to-do's and search in dictionary,wikipedia,youtube and online journals using API Calls.
- * Used HTML,CSS,JAVASCRIPT for the design of frontendhouse and Mysql database for backened.
- * Contributed to the back-end development using the Django Framework, integrated, and enhanced data services.

- * Designed a QuizBot using llama3 to generate quiz questions in multiple formats like mcq,true or false, open ended questions. Integrated a secure database for storing quiz questions, user profiles, and performance metrics.
- * Technologies Used include HTML,CSS,React JS for front end and python for backened.

Extra Curricular Activities

- * Active member in Institute of Engineering (India) in VVIT.
- * Active member in National Service Scheme (NSS) in VVIT.
- * Volunteered in Balotsav in 2018, 2019 conducted by VVIT.
- * Participated in the National Integrity Walk on the event of Swami Vivekananda's birth anniversary.
- * Organised technical events in EXOUSIA 2k19 fest.

Honors AND Awards

Certificate 1: Gained a Silver badge in NPTEL for the course of "The joy of computing using Python

Certificate 2 : Got Chairman's club member certification

Conferences AND Presentations

- 1.To Trust or not to Trust Prediction Score for Membership Inference Attacks
- 2.Performance Evaluation of ML Algorithms for Sarcopenia Diagnosis in Older Adults
