SUMMARY

Health Information Specialist with 9 years of experience in data exchange and quality monitoring, seeking a similar role. Expertise in eCR, ELR, and EHR/EMR systems, with proven ability to onboard and train users effectively. Skilled in HL7 and XML code troubleshooting, enhancing system usability and data accuracy for diverse healthcare stakeholders.

WORK EXPERIENCE

CDC Foundation Remote
eCR Onboarding Specialist Feb 2024 - Mar 2025

- Developed comprehensive training materials and process documentation to facilitate efficient eCR onboarding, data exchange, and troubleshooting.
- Collaborated with hospitals, providers, and laboratories to maintain robust data exchange processes and evaluate data quality through eCR.
- Conducted regular meetings with internal staff and external partners to address data system usage and troubleshooting issues.

State of Nevada Contractor Remote
ELR Onboarding Specialist Feb 2019 - Feb 2024

- Onboarded over 400 new ELR senders to the NBS system during the COVID-19 pandemic, enhancing reporting coverage across the state to 99%.
- Assisted in the transition from the NBS to the EpiTrax ELR disease investigation system, ensuring seamless integration and functionality.
- Led data quality monitoring initiatives for EpiTrax, optimizing reporting accuracy and system usability for more than 250 active users.
- Communicated with users and stakeholders, including the CDC and state departments, to address system upgrades, data submission, and sharing concerns.

Innovative Healthcare Delivery Sep 2015 - Jan 2019
Health Services Supervisor

- Reviewed patient care records and conducted bedside screenings to assess and address patients' social needs effectively.
- Connected patients with suitable community resources, ensuring comprehensive support for their health and social well-being.
- Coordinated and evaluated a team of Health Specialists by designing training programs and creating forms for bedside screenings and data tracking.
