

GEETHIKA SOMISETTY

New Haven, CT 06519 | +1 203-996-7660 | somisetty2209@gmail.com | <https://www.linkedin.com/in/geethika-somisetty666>

PROFESSIONAL SUMMARY

Detail-oriented data professional with a strong background in analyzing and managing complex datasets. Experienced in data entry, data validation, and maintaining high levels of accuracy across multiple platforms. Skilled in identifying discrepancies, ensuring data integrity, and handling sensitive information with confidentiality. Committed to meeting quality standards and deadlines, and eager to leverage technical aptitude and meticulous attention to detail in data-focused roles, including healthcare and analytics environments.

EDUCATION

Master of Science in Data Science | University of New Haven, West Haven, CT | Dec 2024 | GPA: 3.5

Relevant Coursework: Data Science with Python, Machine Learning, Power BI, Distributed Data Engineering, Deep Learning

Bachelor of Science in Computer Science | Sree Vidyanikethan Engineering College, India | Aug 2022 | GPA: 8.3

TECHNICAL SKILLS

Programming & Databases: Python, SQL, Java

Analytics & BI Tools: Power BI, Excel, Tableau

Core Competencies: Data Visualization, Exploratory Data Analysis (EDA), KPI Reporting, Predictive Modeling, Marketing & Customer Analytics

PROFESSIONAL EXPERIENCE

Marketing Analyst Intern

Limitless Management Group | 1234 Summer St, Floor 6, Stamford, CT 06905 | May 2024 – Present

- Analyzed marketing campaign performance using Excel, SQL, and Power BI to monitor KPIs such as conversion rates, customer acquisition cost, and return on investment.
- Developed interactive dashboards to visualize campaign trends, customer demographics, and regional performance.
- Conducted customer segmentation and trend analysis to improve targeting strategies.

- Collaborated with sales and marketing teams to optimize outreach strategies and improve customer engagement.
- Prepared weekly performance reports and insights for senior leadership to support strategic planning.

Business Analyst

Zolostays – Corporate Office, Bangalore, India | Feb 2022 – Nov 2022

- Analyzed operational and customer data to identify inefficiencies and recommend process improvements.
- Designed automated Power BI dashboards and KPI reports to support real-time decision-making.
- Conducted customer feedback analysis, driving a 15% improvement in customer satisfaction.
- Extracted and analyzed data using SQL to uncover trends in operations and customer behavior.
- Partnered with cross-functional teams to streamline workflows and reduce bottlenecks by 20%.

ACADEMIC PROJECTS

Retail Sales Analysis – Python, Power BI

- Performed EDA and statistical analysis to identify sales trends and profitability drivers.
- Built Power BI dashboards using DAX to visualize KPIs and regional performance.

Indoor & Outdoor Semantic Segmentation – Deep Learning

- Trained and evaluated YOLOv5 models for real-time object detection, achieving over 85% accuracy.

Visual Object Detection in Domestic Settings (Capstone)

- Compared YOLOv5, Faster R-CNN, and SSD models based on accuracy, speed, and deployment feasibility.

Customer Sentiment & Feedback Analysis — NLP, Machine Learning

- Analyzed structured and unstructured customer feedback to identify sentiment trends and key issues.
- Performed text preprocessing, feature extraction, and sentiment classification.
- Generated insights to support customer experience and data-driven decisions.

Healthcare Text Data Classification — NLP, Artificial Intelligence

- Built an NLP-based system to classify and organize healthcare-related text data.
- Applied preprocessing and machine learning techniques to improve data accuracy and consistency.
- Validated outputs to ensure reliability and compliance with data quality standards.
