EXPERIENCE

DILLARD'S CORPORATE OFFICE, DALLAS, TX

JUL'22 - PRESENT

BUSINESS ANALYST II – UAT TESTING

- Created requirements specifications, use case diagrams, high level and detailed process flows, robust diagrams and domain model
- Created a business process that decreased requirements gathering and analysis time by a huge percentage.
- Created functional processes for multiple application integration projects.
- Review and validate version release notes, consolidate customer requirements and map new features, improvements and defect fixes against customer needs.
- Ensured success of product deployment by supporting testing with UAT plans and test cases.
- Technical and functional gap analysis of design versus end-product through traceability
- Documented data sources and transformation rules required populating and maintaining data warehouse content.
- Documented the Purpose of mapping so as to facilitate the personnel to understand the process and incorporate the changes as and when necessary.
- Outlined test plans, cases, and scenarios for reports and dashboards according to business requirements
- Implemented structures to certify proper integration of new functionality, timely resolution of all bug fixes and effective regression testing.

Steadfast Healthcare, Dallas, Tx

Feb'21 – May'22

Business Analyst II – QA Testing

- Created and managed process models using BPMN 2.0 in Visio, facilitating clear communication with customers and developers.
- Conducted User Acceptance Testing (UAT) and developed comprehensive test plans to ensure the quality of delivered solutions.
- Played a pivotal role in Agile and Scrum methodologies, participating in sprint planning, backlog grooming, and sprint reviews.

- Led workshops and training sessions to enhance team members' BPMN knowledge and adoption.
- Collaborated with business stakeholders to identify opportunities for process optimization and efficiency improvements.
- Effectively communicated complex technical concepts to non-technical stakeholders, ensuring a shared understanding of project objectives.
- Contributed to the development of efficient and scalable BPM solutions, resulting in increased operational efficiency and customer satisfaction.
- Assisted in gathering and analyzing business requirements, documenting processes, and proposing improvements.
- Worked closely with development teams to ensure the successful implementation of business solutions.
- Conducted user training and provided ongoing support to ensure smooth adoption of new processes.

ONBURD TRAVEL CORPORATE OFFICE, LEKKI, NG
QA ANALYST II – MANUAL TESTING

MAY'19 – FEB'21

- Verified compatibility between existing systems (UI & Mobile App) and new business requirements through gap analysis.
- Key contributor in the prioritization of defects and in the drafting of business requirements to guarantee resolution.
- Ensured the production and maintenance of key product documentation including features, benefits, positioning and impact on key stakeholders.
- Accountable for all special project requests involving analyzing underwriting revenue and financial performance.
- Analyzed special projects requested by company management or reinsurance broker involving underwriting revenue and financial performance for company's reinsurance broker.
- Received award for great collaboration with the SMEs like Property & Casualty Sales Representatives, Account Managers, Underwriting Directors, Officers, SVP & Chief Underwriter, Loss/Risk Control Consultant and Sr. Security Administrator
- Designed test cases for mobile app testing and UI web testing.
