Address: 2545 Koala Drive, East Lansing, MI, 48823

EDUCATION

Michigan State University | East Lansing, MI

May 2018

The Broad College of Business: Bachelor of Arts, Supply Chain Management

Cumulative GPA: 3.6/4.0 | Dean's List: 5/5 Semesters

EXPERIENCE

ARC Healthcare Technologies | Lake Orion, MI

December 2024 - Current

Support Engineer

- Continuously leveraged my ERP Analytical skills and connections to provide a benefit for the company, building up their Inventory system connections and knowledge. This created new improvements for the Web Portal, as well as catching any discrepancies that differ between theoretical software and practical software in the field.
- Addressed tickets and concerns from end-users across the country with their Inventory systems, by investigating their reported issues, and providing a detailed step-by-step guide that helps address their issues in future occurrences.
- Building and updating documentation for further training usage by end-users and building their knowledge. Including revamping their documents to a version 2.0 and onwards, as well as producing the go-live for the company's new featured documentation system that better serves and manages software information and diagnoses for our customers.
- Implemented, designed and pushed a project to full go-live of a new documentation site for our customers to utilize, including AI-assisted answers to their inquiries as well as providing a space for continuous feedback from our customers directly, allowing us to continue developing and building our documentation.

University of Michigan Health-Sparrow | Lansing, MI

February 2022 - December 2024

Supply Chain Systems Analyst

- Primary Manager and Admin-User of UM-Sparrow's Enterprise Resource Planning application, managing the Item Master and assisting with coordinating Vendor Item Reference updates across the state-wide Health System and its affiliates.
- Produced month-to-month Key Performance Indicator updates for direct leadership and director review, including closing out transaction history and inventory reports through our ERP alongside our Accounts Payable team to better improve the visibility of our item levels and costs.
- Acted as project manager to link UM-Sparrow Health Information Technology resources to be utilized across UM-Sparrow's Supply Chain System, such as integrating and improving communication applications with Microsoft Teams and automated reporting visual dashboards with Tableau, Power BI, and SQL Developer.
- Continuously worked with our Value Analysis Team members to better organize and inform our end users with their ordering templates and periodic automatic replacement system. This includes building out several hundred standardizations and conversions of items to better fit the health standards across all main and affiliate hospitals.
- Designed instructional documentation for our RQC or Requisition Center for end users to follow for ordering items directly themselves, including videos developed as guidelines. This included designing a Meet-The-Teams document in anticipation of end users requesting contact information, lessening information disparity across departments.
- Organized an employee charity event for Children's Miracle Network. Worked collaboratively across the different departments conducting a virtual 24-hour marathon to raise money for the UM-Sparrow Children's Center.

University of Michigan Health-Sparrow | Lansing, MI

May 2018 – February 2022

IT Business Operations Analyst

- Provided data analyses regarding HITS Maintenance invoices and payments, allowing caregivers from over 9 separate departments to track remaining payments and assess future budgets, while participating in project managerial positions to ensure go-lives of Vendor subscriptions and IT hardware assets were received in full and to our standards.
- Utilized an Inventory Management system developed within UM-Sparrow HITS to track over a thousand separate hardware and medical assets within UM-Sparrow Hospitals and affiliate locations throughout Mid-Michigan, such as Mobile Carts utilized by every nurse and doctor in the system.
- Contributed updates and input on policies throughout UM-Sparrow's Purchase Requests, helping caregivers to create new requests in the most efficient and effective way, improving the knowledge flow from top down for all caregivers involved.
- Pulled data requests from every HITS department for KPI Benchmarking and comparing with competitor organizations to assess areas for improvement, such as staffing and software vendors, keeping up to healthcare standards.

ACTIVITIES:

• **Extra Life Charity Coordinator** | *Member and Lead Coordinator*

Oct 2018 - December 2024
