

Jacob Olotu

Data Analyst, Cybersecurity

227-259-3338 | jacob.olotu2023@gmail.com <https://www.linkedin.com/in/jacob-olotu-b7477645/>

Cybersecurity Analyst with experience in risk assessment, incident response, and network security. Skilled in developing comprehensive security frameworks, conducting vulnerability and penetration testing, and implementing mitigation strategies. Passionate about protecting digital assets and ensuring data integrity.

Skills

Frameworks: NIST Frameworks, Incident Response, Risk Assessment.

Tools/DevOps: Wireshark, VPN, IPS, IDS, IP scanners, Route/ Traceroute, SIEM, Nmap, Burp Suite, Nessus, Firewalls (Cisco Firepower), Rapid7 Nexpose, Cisco Stealth watch, Malware Analysis (IDA Pro).

Technical Knowledge: Network security, OSI Model, Cryptography, Cloud security

Certifications: Coding Temple- Cybersecurity

Projects

[Risk Assessment, Security Policies And Secure Network Design of Seth Trust Bank](#)

- Conducted a thorough risk assessment and vulnerability analysis using industry standard tools like Rapid7 Nexpose and NIST frameworks to find potential security gaps and threats.
- Designed and implemented a secure network infrastructure using Cisco Firepower and stealth watch for robust protection against cyber-attacks and unauthorized access.
- Performed in-depth malware analysis using IDA Pro to understand and mitigate Advanced Persistent Threats (APTs) targeting the bank's critical systems.
- Developed and implemented robust security policies and procedures aligned with industry best practices, ensuring the protection of sensitive data and digital assets.
- Project outcome: Significantly improved the bank's overall security posture, mitigating identified risk and enhancing the organization's ability to detect and respond to cyber threats effectively.

[Application Security , Cloud Security and Incident Response Plan of Bookster](#)

- Performed in-depth malware analysis using IDA Pro to aid in the identification and mitigation of advanced threats, reducing malware infection rate by 36%.
 - Conducted regular vulnerability assessments using Rapid7 Nexpose leading to a 21% increase in system security
 - Installed updated software and hardware, and resolved technical issues, increase efficiency by 15%
-

- Utilized Cisco Stealth watch to check network traffic and resulted in a 44% reduction in successful attacks.
- Worked with vendors and suppliers to evaluate and select security solutions, cutting cost by 23% while keeping security.

Experience

Cybersecurity Trainee: *Coding Temple*

December 2024 - Present

- Conducted 15+ penetration testing engagements, showing 75 unique vulnerabilities.
- Implemented robust incident response plans for 3 potential clients' organizations.
- Designed and developed secure cloud infrastructure for a financial service client.
- Analyzed network traffic using wireshark, detecting 8 malicious payloads.
- Demonstrated ability in cryptography by encrypting/decrypting 20+ data sample

Sales Associate: *Regency Management Services LLC*

May 2017 – January 2025

- Increased sales by 25%, offering advice on purchases and promoting added products.
- Effectively present product knowledge, overcome objections, and close sales
- Maintained organized and presentable merchandise to drive continuous sales
- Provided positive first impressions to welcome existing, new and potential customers.
- Completed orders and organized product deliveries to meet customer timetables.

Education

Coding Temple, Cybersecurity Certificate, 2024

Ondo State Polytechnics: *Bachelor's Degree, in accounting, 2003 – 2006*

Certification:

CompTIA Security+	(In- View)	2025
--------------------------	------------	-------------
