US Citizen

Experienced QA Specialist with over 4+ years in **finance**, adept in **manual and automation testing**. Proficient in **Agile and Waterfall** methodologies, skilled in **Python scripting, Selenium WebDriver, and API testing**. Certified in **Selenium, Scrum, ISTQB**, and **SQL** for Testers. Committed to delivering top-quality solutions through collaborative teamwork and meticulous attention to detail.

SUMMARY

- Over 4+ years of hands-on experience in Web-based project testing within the **Finance industry**, encompassing both **Manual and Automation Testing**
- Proficient in **SQL**, adept at writing complex queries to validate data integrity, troubleshoot issues, and ensure accurate test results.
- Developed and executed detailed **test plans, test cases, and test scripts** to validate software functionalities based on business requirements and user stories.
- Certified QA tester excelling in **Manual and API testing**, demonstrating proficiency in conducting **Functional, System, Integration, and Regression testing** throughout the **Software Testing Life Cycle (STLC)**. Additionally, adept at employing various testing techniques such as **Black box, White box, Unit, Integration, and Smoke testing**
- Skilled in API Testing, utilizing tools like Postman and Rest Assured to validate endpoints, payloads, and response codes for seamless integration.
- Strong knowledge with hands-on experience in **Agile (SCRUM)** and **Waterfall Testing** Methodologies
- Well-versed with **SQL** command and query writing to conduct **Database Validations**
- Developed robust and maintainable test scripts in **Python** language, employing **Selenium WebDriver** and **BDD framework** to ensure the reliability of test automation
- Actively involved in various phases of **SDLC, STLC** – Test Planning, Requirement Analysis, Test Scenario Design, Test Case Writing, Review, Execution, Defect or Bug Reporting, and Test Reporting
- Proficient in BDD methodologies, utilizing Behave to create Features, Scenarios, and Step definitions in Gherkin format for streamlined collaboration between development and testing teams
- Extensively worked on creating Test Summary Reports, **Requirements Traceability Matrix (RTM)**, and Defect Reports
- Validated Web APIs using the **Postman** tool for **API Testing**.
- Basic understanding of **Git** and **GitHub** for managing source code and **Jenkins** for the continuous integration
- Performed manual testing of the proprietary finance platform's GUI interfaces and integrations.
- Expertise in **Bug Life Cycle, Logging Defect, Bug Tracking, Retesting, and Closing Bug** using **JIRA**
- Basic understanding of core Java and object-oriented programming (OOP) concepts

SKILLS

- **Test Management Tools:** Selenium WebDriver, Postman, JIRA, Zephyr
- **Programming Languages:** Core Java, Python, MYSQL, SQL Server
- **Testing Framework:** Page Object Model (POM), BDD, Test Driven Development (TDD)
- **Methodologies:** Agile, Waterfall, SDLC
- **Databases:** SQL Server
- **Repository System:** Git, GitHub
- **CI/CD Tool:** Jenkins
- **Development Tools:** PyCharm, Eclipse
- **Operating Systems:** Windows 7, Windows 10, Windows 11, MS Visio

CERTIFICATES

- Selenium Essential Training

- Scrum Fundamentals Certified
- ISTQB- CTFL (Certified Tester Foundation Level)
- SQL For Testers
- Programming Foundations: Software Testing/QA

PROFESSIONAL EXPERIENCE

BAIN CAPITAL

Boston, MA

Quality Assurance Analyst

Feb 2022- Feb 2024

Description: As one of the leading private equity firms, Bain Capital uses proprietary platforms for its Portfolio Management, Trading, and Accounting. It uses a Security Master File (SMF) to store the accrual and issuance information of each security, a trading platform to trade securities, and accounting software to manage its financial transactions.

- Performed Manual Testing of the proprietary Finance platform's GUI interfaces and integrations.
- Developed test scripts to execute manual and automated regression test cases or repetitive tasks for the test execution cycle.
- Worked on web portals including Geneva, an SS&C front office portfolio management platform, Wall Street Office (WSO), a middle office proprietary accounting software, and Everest, a front office trading platform.
- Collaborated with cross-functional teams to define and document test scenarios, test cases, and test data for automated testing
- Worked closely with the team to facilitate and support the execution of User Acceptance Testing (UAT)
- Enhanced and expanded test scripts within an existing framework, adeptly identifying web elements through XPath and CSS locators using Python and Selenium WebDriver
- Involved in Testing and Validating the Securities Master File (SMF) data on frontend and backend
- Understand the Client Requirements and functionality of the system
- Performed Data verification and validation using **SQL Queries**
- Effective Defect Tracking and Reporting to improve communication and reduce delay
- Used **JIRA** for Logging defects, defect tracking, and prioritizing defects
- Extensively worked on writing Test Cases and maintaining the Test Cases on **Zephyr**
- Performed all aspects of Verification, Validation including Functional, Regression, System, and End-to-End Testing

APOLLO BOX

Santa Clara, CA

QA Analyst

Oct 2020- Jan 2022

- Documented, tracked, and communicated test plans, test results, analysis, & unresolved problems in **Jira**
- Participated in daily Scrum meetings with project team members and contributed to sprint review/retrospective meetings at the end of each sprint
- Tested, reported bugs, and verified until the bugs were fixed and closed
- Developed and maintained test scripts using **Java** and **TestNG**.
- Identified the correct GUI elements using various Selenium locators such as id, name, link text, and partial link text, and Creating XPath automation scripts
- Performed Back End testing using **SQL queries** to retrieve and verify information in the database
- Applied top-tier Quality Assurance expertise to conduct thorough **Functional Testing** of new features added every sprint, alongside comprehensive **Regression Testing** for all previously implemented functionalities
- Performed **REST API** response validation using **Postman**

EDUCATION

OSMANIA UNIVERSITY

Hyderabad, India

Bachelor - Finance and Business Management

Apr 2003- Apr 2006
