PROFESSIONAL SUMMARY

Dedicated Software Development Engineer in Test (SDET) with 5 years of experience in quality assurance and test automation.

Expertise in Java, Selenium WebDriver, and various testing tools and frameworks to deliver reliable and high-quality software solutions.

WORK EXPERIENCE

Maersk | Norfolk, VA

April 2023 - Present

Software Development Engineer in Test (SDET)

- Developed and maintained automated test scripts using Java and Selenium WebDriver to enhance test coverage and minimize manual testing.
- Implemented BDD with Cucumber and Gherkin, facilitating better communication between technical and non-technical teams
- Conducted REST API testing using RestAssured Library and Postman to verify backend services.

SWIFT | Manassas, VA

January 2021 - March 2023

Test Automation Engineer

- Designed and developed automated test scripts using Java and Selenium WebDriver to validate web applications.
- Employed Cucumber and Gherkin for BDD, enhancing test case readability and maintainability.
- Conducted API testing using RestAssured Library to ensure robust backend functionality.
- Utilized Jenkins for scheduling and monitoring automated test runs.
- Created and maintained SQL queries to support data-driven testing.
- Maintained test repositories in GitHub for version control and collaboration.

Aetna | Chantilly, VA

April 2019 - December 2020

QA Automation Engineer

- Developed automated test cases using Java and Selenium WebDriver to improve test efficiency.
- Implemented JUnit-based test scripts and integrated them into the CI pipeline with Maven.
- Utilized Cucumber for BDD to align tests with business requirements.
- Performed extensive API testing with RestAssured Library and Postman.
- Managed and executed test plans in JIRA, logging defects and tracking resolution.
