Tools: Excel - Pivot Tables, VLOOKUP, Index Match, Macros,

Power BI, Tableau

Database: MySQL, MongoDB

Soft Skills: Communication, Problem-solving, Teamwork, Report Writing, Presentation

Experience

Zentrais | Data Analytics Intern

Oct 29, 2025 – Present

Fort Lauderdale, FL

- Worked with Excel to organize, validate, and analyze project-related data, ensuring data accuracy and consistency across reports
- Collaborated with the design and senior team members to support system flow understanding and architecture alignment.
- Assisted with data model scripting, environment setup, and cross-functional coordination across infrastructure and components.

SKYGOAL INC | Data Analytics Intern

Sep 2021 – Dec 2022

Hyderabad, Telangana

- Analyzed user behavior and product interaction data to support business decisions.
- Built Excel-based operational reports using pivot tables, lookups, and automated calculations.
- Conducted competitor and market research to identify product improvement opportunities.
- Collaborated with engineering and design teams to map user workflows and improve efficiency.

TRIPONVO | Junior Data Analyst

Nov 2022 – Dec 2023

Hyderabad, Telangana

- Extracted, cleaned, and analyzed customer and operational datasets to support strategic decisions.
- Built dashboards in Power BI to visualize KPIs such as bookings, retention, and user segments.
- Created SQL queries to perform cohort analysis, retention tracking, and performance measurement.
- Worked with cross-functional teams to improve processes through data-driven insights.

Projects

Road Accident Severity Analysis in India– Power BI

- Pre-processed data using Python and created visualizations in PowerBI, including dashboards for casualties, vehicle involvement, and accident severity.
- Identified trends in severity, the impact of road conditions, and the effectiveness of safety measures. Provided actionable insights to reduce accidents and enhance safety measures.

Warehouse Orders & Logistics Analysis Project- Excel

- Performed end-to-end analysis of warehouse and logistics datasets to uncover trends in order volume, inventory flow, and shipment performance.
- Designed interactive dashboards and visual reports for tracking order volume, category performance, and fulfillment KPIs.
- Delivered actionable business recommendations to optimize inventory planning and warehouse operations.

British Airways Data Science Job simulation on Forage

- Completed a simulation focusing on how data science is a critical component of British Airways Success.
- Scraped and analyzed customer review data to uncover findings.

Certifications

- Google Data Analytics Professional Certificate
- Software Engineering Virtual Experience - JPMorgan Chase & Co.
- Data Science Virtual Experience Program, British Airways (via Forage)
- Google UX Design Professional certificate

Education

Florida Atlantic University

2023 – 2025
