SUMMARY

Salesforce Developer with 3+ years of experience, experience in Salesforce Service Cloud, Salesforce Sales Cloud, and client engagement. Proficient in Apex, Salesforce API, and Lightning Web Components, with strong experience in custom Lightning component development, Declarative Development, and Agile methodologies. Skilled in HTML/CSS, JavaScript, and SOQL/SOSL for seamless integration and data management. Adept at optimizing code, ensuring smooth deployment, and driving business solutions across various industries.

SKILLS

CRM:	Salesforce Service Cloud, Salesforce Sales Cloud, Client & Stakeholder Engagement, Experience Cloud, AppExchange
Web Technologies:	HTML/CSS, JavaScript, JSON
Tools	Visual Studio Code, Connector, Data loader, Force.com, Workbench
Database Management:	SQQL/SOSL
Salesforce Technologies:	Apex, Salesforce API, Salesforce Flows, Lightning Web Components, Visualforce
Salesforce Development:	Custom Lightning Components, Declarative Development, Code Optimization & Debugging, Agile Methodology

WORK EXPERIENCE

CitiGroup, MO, USA Salesforce Developer

Jan 2024 - Present

- Designed and deployed Custom Objects, Custom Fields, and Page Layouts to streamline Salesforce processes, enhancing user experience and improving workflow efficiency across corporate banking and investment services.
- Engineered Assignment Rules and Escalation Rules to optimize case routing for brokerage teams, leading to improved case management response time and a reduction in manual intervention.
- Utilized Sales Cloud, Service Cloud, and Experience Cloud to streamline corporate banking workflows and improve user engagement.
- Created tailored solutions using Visualforce pages, Apex controllers, Batch Apex, and Lightning Web Components to support banking processes and client interactions.
- Executed unit tests and automated testing as part of test plans, participated in code reviews to maintain code quality standards.
- Configured declarative solutions, including Flows, Aura Components, Page Layouts, and sharing rules, within Sales and Service Cloud to streamline workflows, increase team productivity, and improve response times for specific banking needs.
- Utilized REST/SOAP APIs for data synchronization between internal systems and Experience Cloud portals, enhancing data accuracy and client accessibility.
- Created comprehensive technical solution documentation for Sales, Service, and Experience Cloud implementations.
- Developed and maintained complex Approval Processes, incorporating email alerts and field updates to reduce manual oversight and improve efficiency in financial transaction services.
- Conducted training sessions for internal stakeholders, promoting the adoption of Salesforce best practices and improving data reporting capabilities across various business units.
- Actively involved in the end-to-end Salesforce Development Life Cycle, from requirements gathering to deployment. Utilized DevOps tools like Copado and Git/GitHub for version control, ensuring smooth deployment processes and collaboration across teams.
- Customized Email Templates and integrated them with workflow rules, enhancing internal and client-facing communications, reducing manual email interventions.
- Utilized Agile methodologies for project execution, coordinating with cross-functional teams to meet development milestones, enhance system performance, and ensure high availability and reliability for mission-critical applications.

I Sparrow, India Salesforce Developer

Jun 2020- Dec 2022

- Designed and implemented custom Salesforce workflows, including Flows, workflow rules, email alerts, and field updates, leading to improved process efficiency and reducing manual tasks for real estate project management.
- Built Apex triggers, Batch Apex, and Visualforce pages to automate processes, while Lightning Web Components supported enhanced user interfaces and external interactions via Experience Cloud.
- Conducted automated testing and unit tests, participating in code reviews to ensure adherence to design patterns and quality standards.
- Configured workflows, approval processes, and page layouts in Sales and Service Cloud using the Salesforce point-and-click interface to optimize real estate transaction workflows, lead management, and client support processes.
- Documented all configurations and provided training to enhance adoption and utilization of Sales and Service Cloud capabilities.
- Developed and configured Experience Cloud portals for client access, improving client engagement and transparency.
- Created dynamic reports and dashboards for tracking sales performance, property listings, and lead generation, providing real-time insights that improved decision-making and boosted sales effectiveness.
- Configured security settings, including sharing rules and permissions, to ensure secure data access based on organizational hierarchies, enhancing compliance and collaboration across teams.
- Integrated external systems using REST and SOAP APIs and utilized Apex and Aura components to improve system reliability and data synchronization, resulting in seamless information flow and enhanced data integrity across Salesforce.
- Collaborated in Agile sprints with cross-functional teams (sales, marketing, and operations) to design Salesforce solutions, achieving a 25% increase in operational efficiency and speeding up responses to client inquiries.

EDUCATION

Master of Arts in Information Technology & Management

Webster University, St Louis, MO, USA

Jan 2023- Mar 2024

Bachelor of Engineering in Computer Science

Stanley College of Engineering & Technology for Women, Hyderabad, India

Jul 2018- Jun 2022

CERTIFICATIONS & SUPERBADGES

- Salesforce Certified Administrator (SCA)
- Salesforce Certified Platform Developer I
- Salesforce Certified Platform Developer II
- Salesforce Certified Business Analyst
- Process Automation Specialist
- Data Integration Specialist
- Apex Specialist
- Advanced Apex Specialist
