Dallas, USA | [nareshtokala19@gmail.com](mailto:nareshtokala19@gmail.com) | +1 682-556-3715 | [www.linkedin.com/in/nareshtokala](https://www.linkedin.com/in/nareshtokala)

### Professional Summary

Detail-oriented **Data Analyst** with 4+ years of experience in **data extraction, reporting, and business analysis** across insurance and technology domains. Skilled in **Microsoft Excel (VLOOKUP, PivotTables, VBA), SQL, and Python** to transform raw data into actionable insights. Proven ability to support **customer accounts, forecasting, and reporting** by identifying trends, improving accuracy, and streamlining manual processes through automation. Adept at collaborating with cross-functional teams and delivering reports that drive **sales, financial, and operational decisions**.

### Professional Experience

---

#### Data Engineer | State Farm Insurance | Remote, USA | May 2024 – Present

- Extract, clean, and analyze large datasets using **SQL, Python, Excel, and enterprise tools (Scintilla, Circana)** to support financial and operational reporting.
- Built and maintained **Excel/Power BI dashboards** with advanced formulas, PivotTables, and VBA automation for recurring reports.
- Automated data validation and reconciliation workflows, improving reporting accuracy to **99%** and reducing manual effort.
- Partnered with sales, finance, and BI teams to provide curated datasets and reports for decision-making.
- Identified **trends, KPIs, and efficiency gaps** to recommend cost-saving and growth strategies.
- Managed **multiple concurrent data projects** in a fast-paced environment, effectively prioritizing tasks to meet tight deadlines and business requirements.

#### Data Analyst | Virtusa | Hyderabad, India | Sep 2020 – Jul 2023

- Developed and maintained **Excel-based dashboards, forecasting models, and ad-hoc reports** for finance and sales account teams.
- Extracted and processed large volumes of data from **databases (Oracle, PostgreSQL, Redshift)** and **third-party sources (Scintilla, Circana)** to support reporting.
- Conducted **trend analysis, data mining, and forecasting** to improve reporting accuracy and business insights.
- Delivered enhancements in **report automation** using Python, SQL, and VBA macros, reducing manual work by **30%**.
- Supported account teams with **order tracking, day-to-day reporting tasks, and execution of special projects**.
- Coordinated competing priorities across reporting, order tracking, and special projects, ensuring on-time delivery and stakeholder satisfaction.

### Education

---

**Master of Science in Data Science** – University of Texas at Arlington

### Technical Skills

---

**Data Analysis & Reporting:** Microsoft Excel (VLOOKUP, PivotTables, VBA), Power BI, Tableau, SQL (advanced), Python (Pandas, NumPy), Microsoft Word

**Data Management:** Data Entry, Data Mining, Data Modeling, Database Reporting

**Databases & Warehousing:** Amazon Redshift, PostgreSQL, Oracle, SQL Server, MySQL, Google BigQuery, Azure Synapse

**Enterprise Tools:** Scintilla, Circana, Power Automate

**Big Data & Engineering:** Apache Spark, PySpark, Kafka, Hadoop, Apache Airflow, ETL Pipelines

**Cloud Platforms:** AWS (S3, Glue, Redshift, RDS, EMR, Lambda), Azure Data Services, Google Cloud (BigQuery, Dataflow)

**DevOps & Automation:** Jenkins, Git/GitHub, Docker, Kubernetes, Terraform, CI/CD for Data Pipelines

**Data Quality & Testing:** PyTest, Unit Testing, Automated Data Validation
