Education

B.S. Computer Science
Minor in Mathematics

University of Massachusetts - Lowell
2019-2023

Undergraduate Coursework:
Machine Learning, Artificial Intelligence, Cloud Computing, Intro to Computer Security, Computer Architecture, Analysis of Algorithms, Assembly Language, Operating Systems, Discrete Mathematics, Probability & Statistics, Foundations of Computer Science, Linear Algebra, Organization of Programming Languages, Cloud Computing, IoT Security and Privacy

Skills

Full-stack development, Supabase, Windows, OS X, Linux, Version control, Word, Excel, Figma, SQL

Languages

C
C++
JavaScript (React.js, Node.js)
Python
HTML/CSS
Java

Projects

Real-Time Collaborative Notes Application

- Developed a **full-stack web application** enabling **real-time collaborative** note editing with rich-text formatting.
- Built a **responsive front-end** using **React, Material UI, and TipTap** for a polished, intuitive user experience.
- Implemented **REST endpoints** with **Express.js** to handle backend operations, ensuring secure data access and **CORS-compliant** communication with the frontend.
- Implemented real-time synchronization using **Firestore**, ensuring seamless updates across multiple clients.
- Optimized **queries** and **data structure** to ensure low latency updates for shared notes.

Song Typing Web Game

- Conceptualized and developed a captivating web application using **React/Javascript** for frontend and **Node.js** for backend, creating an engaging song typing game reminiscent of karaoke.
- Utilized **YouTube and Spotify APIs** to seamlessly integrate a vast library of songs.
- Designed an intuitive and user-friendly interface with smooth navigation using **Chakra UI** and **React Router**.
- Implemented efficient state management with **Zustand**.
- Deployed the project using **Netlify** for seamless and efficient web hosting and deployment.
- Hosted backend API on **Vercel**, enabling real-time retrieval of song lyrics

Experience

Student Technician @ UML

(09/2019 - 05/2020)

- Offered comprehensive technical support to individuals with diverse levels of technical proficiency and educational backgrounds
- Diagnosed and resolved software and hardware issues promptly and effectively
- Managed incoming inquiries via phone calls and in-person visits

Marketing & Advertising Assistant @ Robelle Industries

(05/2019 - 06/2019)

- Leveraged Excel VBA functions to analyze product data, enabling the development of data-driven marketing strategies for targeted promotional campaigns
- Managed company Facebook page, crafting engaging advertisements and writing blog posts to enhance product visibility and drive sales
