

Naveen Kumar Yata

Data Analyst | & BI Specialist

Contact: +1 (475)-342-2621 | Email: nyata496@gmail.com

PROFESSIONAL SUMMARY

- Technology Data Analyst with **5+ years of progressive experience** delivering high-impact data analytics, reporting, and business intelligence solutions across **healthcare, manufacturing, finance, insurance, and enterprise technology environments**.
- Strong hands-on expertise in **data extraction, cleansing, transformation, and validation**, working with large-scale structured and semi-structured datasets to ensure data accuracy, consistency, and reliability for downstream analytics and reporting.
- Proven ability to design and deliver **end-to-end analytics solutions**, including requirement analysis, KPI definition, data modeling, ETL coordination, dashboard development, and executive-level reporting.
- Advanced proficiency in **SQL and Python (Pandas, NumPy)** for complex data analysis, ad-hoc reporting, trend analysis, root cause investigation, and automation of manual data processes.
- Extensive experience building **interactive dashboards and self-service BI solutions** using **Power BI, Tableau, and Looker**, enabling leadership teams to monitor operational performance, risks, and strategic metrics in real time.
- Strong background working with **cloud-based data platforms**, including **AWS (S3, Glue, Redshift), Snowflake, and relational databases**, supporting scalable and secure analytics environments.
- Demonstrated success collaborating with **engineering, product, compliance, and business stakeholders**, translating functional requirements into technical data solutions aligned with organizational goals.
- Experienced in supporting **regulatory and compliance-driven reporting**, data governance initiatives, audit readiness, and documentation standards within enterprise environments.
- Skilled in identifying data gaps, inconsistencies, and inefficiencies, and implementing **process improvements and automation** that reduce reporting turnaround time and improve data transparency.
- Adept at working in **Agile/Scrum environments**, actively participating in sprint planning, backlog refinement, UAT support, and cross-functional coordination.
- Strong communicator with the ability to **present complex analytical findings in a clear, concise manner** to both technical and non-technical stakeholders through dashboards, reports, and executive summaries.
- Detail-oriented and results-driven professional with a strong focus on **data quality, analytical accuracy, and business impact**, consistently enabling data-driven decision-making.
- Served as a trusted analytics advisor to business stakeholders, influencing data-driven decision-making.
- Helped shape reporting roadmaps and analytics priorities aligned with organizational goals.

- Reviewed and provided feedback on dashboards and reports developed by other analysts to ensure quality and consistency.

EDUCATION

Masters of science

Lindsey Wilson college. University in Columbia, Kentucky. Dec 2024

Bachelor of science in computer science

Sri Sai Degree college. Hyderabad. June 2019

TECHNICAL SKILLS

Data Analysis & Programming

SQL (Complex Queries, Joins, Subqueries, CTEs),
Python (Pandas, NumPy),
Advanced Excel (Pivot Tables, Power Query, Lookups)

Data Visualization & BI Tools

Power BI (DAX Basics, Data Modeling, Interactive Dashboards),
Tableau (Reports, KPI Dashboards),
Ad-hoc Reporting & Executive Dashboards

Databases & Data Platforms

PostgreSQL,
MySQL,
Microsoft SQL Server,
Oracle,
Snowflake

Cloud & Analytics Platforms

AWS S3,
AWS Glue,
Amazon Redshift,
Cloud-based Analytics Environments

Data Processing & ETL

Data Extraction, Transformation & Validation (ETL),
SQL-based Data Modeling,
Python-based Data Transformation,
Data Reconciliation & Quality Checks

Reporting & Analytics

KPI Development & Metric Definitions,
Trend Analysis & Variance Analysis,
Root Cause Analysis,
Ad-hoc & Operational Reporting

Data Governance & Quality

Data Validation & Reconciliation,
Data Documentation & Lineage Support,
Audit & Compliance-Ready Reporting

Tools & Methodologies

JIRA,
Confluence,
Agile / Scrum Methodology,
UAT Support & Release Validation

PROFESSIONAL EXPERIENCE

Technology Data Analyst

Syner-Genix Inc. – New Jersey, USA

Jan 2025 – Present

- Lead end-to-end data analysis initiatives supporting enterprise reporting, operational analytics, and strategic decision-making across multiple business functions.
- Analyze large-scale datasets using **SQL and Python** to uncover trends, anomalies, and performance gaps that impact business outcomes.
- Design, develop, and maintain **Power BI and Tableau dashboards** for leadership, ensuring accurate tracking of KPIs, metrics, and operational performance.
- Partner with business stakeholders, product teams, and engineers to gather analytics requirements and translate them into scalable reporting solutions.
- Perform detailed **data validation, reconciliation, and quality checks** to ensure consistency between source systems and analytics outputs.
- Support cloud-based analytics platforms using **AWS and Snowflake**, enabling reliable and scalable data access for reporting and analysis.

- Optimize SQL queries and reporting logic to improve dashboard performance and reduce data refresh times.
 - Deliver ad-hoc analysis, deep dives, and executive summaries to support leadership inquiries and strategic initiatives.
 - Contribute to data governance efforts by documenting datasets, metrics definitions, and reporting logic to support audit readiness.
 - Support UAT and production releases by validating analytics outputs against business expectations.
-

Data Analyst

IDC Technologies – Hyderabad, India

Apr 2021 – Sep 2022

- Supported enterprise data analytics initiatives by analyzing operational, transactional, and system-generated datasets to drive data-driven decisions.
 - Developed and maintained **ETL and data transformation workflows** using Python, SQL, and cloud-based tools to prepare analytics-ready datasets.
 - Built interactive dashboards and standardized reports to track operational efficiency, trends, and performance metrics.
 - Collaborated with cross-functional teams to understand reporting requirements and translate them into technical data solutions.
 - Conducted **trend analysis, variance analysis, and root cause analysis** to identify inefficiencies and improvement opportunities.
 - Implemented data validation rules and reconciliation checks to ensure accuracy across reporting layers.
 - Assisted in migrating data and reports from legacy systems to cloud-based platforms, improving scalability and accessibility.
 - Automated recurring reports and data preparation processes, reducing manual effort and turnaround time.
 - Supported Agile delivery by participating in sprint planning, backlog refinement, and release validation.
 - Created technical and functional documentation for datasets, reports, and dashboards.
-

Junior Data Analyst

Vamstar – Hyderabad, India

Feb 2020 – Mar 2021

- Supported senior analysts with data preparation, cleansing, and validation activities for reporting and analytics.
- Wrote SQL queries and Excel-based analyses to extract and analyse healthcare procurement and claims data.

- Assisted in developing dashboards and reports by validating metrics, refreshing datasets, and ensuring data accuracy.
 - Performed exploratory data analysis to identify trends, inconsistencies, and data quality issues.
 - Responded to ad-hoc data requests from finance and operations teams with accuracy and quick turnaround.
 - Automated basic reporting tasks using Excel and scripting, reducing manual reporting effort.
 - Maintained documentation for reporting logic, data definitions, and assumptions to support consistency.
 - Gained hands-on experience with data governance practices and compliance-driven reporting standards.
-

CERTIFICATIONS

- AWS Certified Data Analytics – Specialty
- Tableau Desktop Specialist
- Agile Analytics / Business Analysis Certification
