OBJECTIVE

Analytical and results-driven Information Systems graduate skilled in SQL, SAP S/4HANA, Tableau, and Power BI. Experienced in turning complex data into actionable insights that improve process efficiency, data quality, and business performance. Passionate about consulting, problem-solving, and helping clients achieve smarter data-driven decisions.

SKILLS

Data & Databases: SQL, MySQL, MS SQL Server

Business Intelligence & Tools: Tableau, Power BI, SAP S/4HANA, SAS, Vensim, Microsoft Visio

Programming: Python (Intermediate)

Data Analysis: Data cleaning, Transformation, Predictive modelling, Dashboard development, Statistical analysis

Business Processes: Requirements analysis, KPI tracking, Process mapping, Workflow optimisation

Other: Advanced Excel (Pivot Tables, Macros), PowerPoint, Word, Figma

Soft Skills: Problem-solving, Analytical thinking, Collaboration, Communication

EDUCATION

Cleveland State University

Jan 2023 – Dec 2024

Master of Science, Information Systems,

Cleveland, Ohio

- Graduate Business Analytics Certificate

- Relevant Coursework: Network/Security Risk, Enterprise Databases, Business Analytics, Project Management, ERP Systems

Dr D Y Patil Institute of Technology

2015 - 2020

Savitribai Phule Pune University, Bachelor of Engineering in Electrical

Pune, India

EXPERIENCE

Stellar Information Technology Private Limited

Dec 2020 – Jan 2022

Data Associate

Navi Mumbai, India

- Conducted data quality analysis across 500+ recovery cases, increasing success rates by 30% through process standardisation.
- Validated and assessed 100+ storage media monthly, achieving 95% accuracy in identifying technical issues.
- Optimised workflows to reduce turnaround time by 25%, improving case handling efficiency from 4 to 5+ cases per day.
- Collaborated cross-functionally to enhance reporting accuracy by 20%, ensuring compliance across 1,000+ devices.
- Maintained full adherence to data protection standards, achieving 100% compliance and zero breaches during tenure.

PROJECTS

ERP Simulation

Aug 2024 – Dec 2024

- Led 5-member team to optimise Procurement, Production, and Sales within SAP S/4HANA.
- Designed real-time Tableau dashboards for performance tracking and KPI visualisation, driving 20% sales growth.
- Achieved a \$64.78M company valuation, 71.07% gross margin, and \$1.82M net income through pricing and supply-chain optimisation.
- Mapped end-to-end business processes to streamline decision-making and automate data reporting.

Bank Marketing Campaign Analysis

Jan 2024 – May 2024

- Analysed 41,188+ telemarketing records to optimise customer targeting and conversion strategies.
- Achieved 87% prediction accuracy (AUC = 0.85), improving ROI by 25% and reducing marketing costs by 18% (~\$50K annual savings).
- Developed SQL queries to extract and validate process data from SAP S/4HANA tables, ensuring accurate reporting and analysis.
- Applied data transformation, feature engineering, and SMOTE balancing to enhance model robustness.

EXTRACURRICULAR AND CERTIFICATIONS

McKinsey Forward Program

July 2025

- Successfully completed the McKinsey Forward Program, where I gained hands-on experience in Consulting, problem-solving and data-driven communication skills.

Mastercard Cybersecurity virtual experience program on Forge

February 2025

- Completed a job simulation where I served as an analyst on Mastercard's Security Awareness Team.
- Helped identify and report security threats such as phishing.
- Analyzed and identified which areas of the business needed more robust security training and implemented training courses and procedures for those teams.
