EDUCATION

Master's in Information Technology, Arizona State University, Tempe, USA **May 2024**

Relevant Coursework: Advance Database Management Systems, Info Systems Management, Data in Cloud

Bachelor of Technology, Dr. MGR Educational and Research Institute, Chennai, India **May 2022**

Relevant Coursework: Object Oriented Programming, Web Development, Operating Systems, and Analytics

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, Java

ETL and Testing Tools: Informatica, Talend, Microsoft SSIS, JIRA, Selenium, Tosca

Databases & OS: MySQL, NoSQL, Data Warehousing, Excel, Tableau, GitHub, Windows, macOS, Visual Studio

Project Management: Agile methodologies, Test case planning, Defect management

EXPERIENCE

University Enrollment Data ETL Validation, ASU , Tempe, USA **May 2023 - Jul 2023**

- Designed detailed test plans and cases to cover all aspects of the ETL process.
- Used SQL to create complex queries for data validation and comparison between source and target systems.
- Automated repetitive testing tasks using Python scripts to enhance testing efficiency.
- Conducted data quality checks to identify discrepancies and collaborated with the ETL development team to resolve issues.
- Generated detailed test reports and documentation for stakeholders.

Financial Transactions ETL Testing for Fraud Detection, Chennai, India **Apr 2022 - Jun 2022**

- Developed test scripts and cases to validate data extraction, transformation, and loading stages.
- Utilized SQL and Python to perform extensive data validation and anomaly detection.
- Conducted performance testing to ensure ETL processes handled large volumes of data efficiently.
- Collaborated with data scientists to validate the accuracy of fraud detection algorithms.
- Documented test results and provided actionable insights to improve ETL processes

Used Card Dataset Visualization, ASU, Tempe, USA **Jan 2023 – April 2023**

- Executed an end-to-end Data Visualization project focused on the analysis of the United States used car market.
- Leveraged Tableau to design interactive dashboards that provided answers to specific analytical questions.
- Developed dynamic filters and parameters to enhance data exploration and interactivity.
- Collaborated with cross-functional teams to collect, clean, and preprocess datasets.

- Ensured that visualizations were intuitive and effectively communicated key insights about the used car market

ETL Tester, Advit Software and Business Solutions, Hyderabad

Apr 2021 – Mar 2022

Responsibilities

- Designed and executed test plans to validate ETL processes, ensuring accurate data extraction, transformation, and loading.
- Created complex SQL queries to perform comprehensive data validation and comparison between heterogeneous data sources and targets.
- Developed automated ETL testing scripts using Python and Selenium to streamline the testing process.
- Conducted root cause analysis of data discrepancies and collaborated with ETL developers to implement fixes.
- Performed data integrity checks on large datasets, ensuring compliance with business rules and data quality standards.
- Documented detailed test results, identified defects, and tracked their resolution using TestRail and JIRA.
- Coordinated with data engineers and business analysts to refine ETL requirements and enhance test coverage.

Key Achievements

- Reduced data validation time by 40% by implementing a robust suite of automated testing scripts.
- Identified and resolved critical data quality issues, resulting in a 25% improvement in overall data accuracy.
- Successfully validated ETL processes for a real-time analytics platform, enhancing data reliability and reporting capabilities.

SUMMARY

ETL Tester with experience in developing and executing comprehensive test plans for ETL processes. Proficient in using ETL tools like Informatica, Talend, and SSIS, with strong skills in SQL, Python, and data analysis. Known for automating testing tasks, ensuring data accuracy and integrity, and collaborating effectively with cross-functional teams. Experienced in data warehousing, business intelligence, and industry standards, committed to delivering high-quality data solutions.

ADDITIONAL DETAILS

- Willing to relocate anywhere in the US
- Volunteered for a Coding Club
- Languages – English, Hindi, Telugu and Dog
- Co-Founder of ALMS Foundation
- Member of Google Developers Group
- GPA – 3.93
