EDUCATION

Associate Degree in Applied Science – Business Administration

Dallas Community College, Dallas, Texas | Graduated: December 2021

Relevant Coursework:

- Business Mathematics (Statistics and Data Analysis)
- Financial Accounting & Managerial Accounting
- Economics (Microeconomics and Macroeconomics)
- Principles of Management & Human Resource Management

DATA ANALYSIS PROJECTS

Exploring Trends in Homelessness Using SQL

- Analyzed 10,000+ records from public datasets using SQL (BigQuery) to identify homelessness trends and patterns
- Extracted and manipulated data from databases using complex SQL queries including INNER JOIN and LEFT JOIN operations
- Applied aggregation functions (COUNT, SUM, AVG, MIN, MAX) and GROUP BY clauses to perform statistical calculations
- Filtered and sorted data from ascending to descending order to highlight key insights for decision-makers

CO2 Emissions Per Capita Analysis Using Tableau

- Created interactive Tableau dashboard visualizing CO2 emissions data across 150+ countries from 2000-2011
- Customized visualizations using color, size, and label formatting to highlight emission trends and outliers
- Utilized filters, line charts, scatter plots, and geographic maps to present data insights effectively
- Demonstrated ability to transform complex environmental data into actionable visual insights

Advanced Excel Analysis & Data Visualization

- Applied conditional formatting to large datasets to identify patterns and specify multiple business conditions

- Utilized VLOOKUP functions to search, match, and calculate values across multiple data columns efficiently
- Created bar charts and data visualizations to present sales performance and product analysis insights
- Performed data cleaning, sorting, and filtering operations on spreadsheets to ensure data integrity

PROFESSIONAL EXPERIENCE

Caregiver

Caring People Inc, Dallas, TX | January 2022 – Present

- Collected and analyzed patient health data including blood pressure, temperature, oxygen levels, and respiration rates, tracking trends in care logs to inform clinical decisions and identify potential health concerns
- Monitored patient responses to prescribed medications and documented outcomes, ensuring data accuracy and adherence to care plans while maintaining regulatory compliance
- Maintained detailed records and reports on patient care activities, demonstrating strong attention to detail and data integrity practices essential for healthcare operations
- Recognized as Employee of the Year (2023) for exceptional performance, demonstrating strong work ethic and commitment to quality outcomes

Delivery Driver

Uber Partners Inc, Dallas, TX | May 2019 – February 2024

- Analyzed route optimization data across 8,000+ deliveries, leveraging GPS analytics and navigation systems to improve delivery efficiency and reduce travel time by approximately 15%
- Maintained 4.99/5-star customer satisfaction rating and 98% satisfaction score through proactive communication and problem-solving, demonstrating strong stakeholder management skills
- Strategically planned and organized trips to meet strict deadlines while ensuring compliance with safety regulations and risk management protocols
- Utilized data-driven decision making to optimize routes and improve operational efficiency in high-volume logistics environment
-

Customer Service Associate

Health Insurance King, Irving, TX | August 2021 - April 2022

- Assisted customers during the open enrollment period by providing accurate information about plans, eligibility and coverage options.
- Responded to high volumes of inbound calls and inquiries with professionalism, empathy and a focus on clear communication.
- Collaborated with team members and supervisors to resolve complex enrollment or account issues.
- Maintained detailed records in CRM and enrollment systems while adhering to HIPAA confidentiality standards.

ADDITIONAL TRAINING

Google Data Analytics Certificate – Merit America (Virtual)

- Completed 200+ hours of hands-on labs and capstone projects mastering data collection, transformation, organization, and visualization
- Gained proficiency in SQL, Tableau, R, and Excel through real-world case studies and business scenarios
- Collaborated with training cohort on team-based projects, developing project management and problem-solving skills
