SUMMARY

Data Analyst with 4+ years of experience cleaning, organizing, and analyzing datasets to uncover trends and insights, specializing in data visualization, analytical storytelling, and supporting data-driven decision-making with expertise in **SQL**, **Power BI**, **Tableau**, and **Python**. Proficient in creating and maintaining dashboards and reports using **Power BI**, **Tableau**, and **Looker**, writing **SQL** queries to extract and transform data from 10M+ records, and leveraging **Excel** at advanced level including pivot tables, functions, and charts. Proven success in collaborating with cross-functional teams to understand business needs and data requirements, assisting in documenting processes and presenting findings to internal teams, and uncovering actionable insights using statistical concepts and analytical thinking. Strong attention to detail and ability to communicate technical information clearly to both technical and non-technical stakeholders, delivering reports and visualizations that drive efficiency and achieve growth.

TECHNICAL SKILLS

- **SQL & Data Querying:** SQL (complex queries, data extraction, transformation, optimization), MS SQL Server, PostgreSQL, Snowflake
- **Data Visualization:** Power BI (DAX, dashboards, interactive reports), Tableau (dashboards, storytelling), Looker, Data Visualization Best Practices
- **Programming & Analysis:** Python (Pandas, NumPy, SciPy, Matplotlib, Seaborn), R (ggplot2, dplyr), Statistical Analysis
- **Excel:** Advanced Excel (Pivot Tables, VLOOKUP, INDEX-MATCH, Complex Functions, Power Query, VBA, Charts, Data Analysis)
- **Data Engineering:** ETL/ELT, Data Modeling, Data Cleaning, Data Organization, Data Quality, PySpark, SSIS, Airflow
- **Analytics Tools:** SAP Business Objects, Statistical Concepts, Trend Analysis, Insights Generation, Analytical Thinking
- **Cloud & Platforms:** AWS (S3, Glue, Lambda), Azure (Data Factory, Synapse), Databricks
- **Tools & Practices:** Git, GitHub, JIRA, Agile, Documentation, Process Mapping, Presentation Skills

EDUCATION

- **Wright State University** Jan 2024 - Dec 2025
Master of Science in Computer Science Fairborn, OH, USA
 - **GPA:** 3.8/4.0
 - **Relevant Coursework:** Data Analytics, Statistics, Database Systems, Data Mining, Machine Learning
- **Lovely Professional University** Aug 2016 - May 2020
Bachelor of Technology in Computer Science and Engineering Phagwara, Punjab, India
 - **GPA:** 3.1/4.0

PROFESSIONAL EXPERIENCE

- **Early Learning Coalition of Flagler & Volusia (ELCFV)** May 2025 - Sep 2025
Data Analyst Florida, USA
 - **Dashboard & Report Creation:** Created and maintained dashboards and reports in **Power BI**, **Tableau**, and **Excel**, analyzing 2M+ enrollment records to uncover trends and insights for 50+ stakeholders, supporting data-driven decision-making across 15+ operational programs with 99.7% accuracy
 - **SQL Data Extraction:** Wrote **SQL** queries to extract and transform data from enrollment, provider, and program databases, cleaning and organizing datasets from multiple sources processing 500K+ daily transactions, optimizing query performance by 60% through indexing and efficient joins
 - **Data Analysis:** Cleaned, organized, and analyzed datasets using **Python** (Pandas, NumPy), **SQL**, and **Excel** to uncover trends and insights, applying statistical concepts and analytical thinking to identify patterns reducing manual reporting by 45%
 - **Cross-Functional Collaboration:** Collaborated with cross-functional teams including program managers, finance staff, and leadership to understand business needs and data requirements, presenting findings to internal teams with clear analytical storytelling achieving 98% stakeholder satisfaction
 - **Process Documentation:** Assisted in documenting processes including data workflows, transformation logic, and reporting procedures, creating comprehensive data dictionaries and technical specifications that improved team efficiency by 40%

- **Advanced Excel Analytics:** Leveraged **Excel** at advanced level including pivot tables, VLOOKUP, complex functions, Power Query, and charts to create ad-hoc analyses and financial reports, reducing manual data preparation time by 35%
- **Wright State University** Aug 2024 - Dec 2024
Graduate Teaching Assistant - Foundations of Artificial Intelligence Dayton, Ohio
 - **Data Analysis Training:** Provided training to 60+ students on **Python**-based data analysis, **SQL** querying, and statistical concepts, communicating technical information clearly to learners at various skill levels, improving average assignment performance by 28%
 - **Analytical Support:** Assisted students in cleaning, organizing, and analyzing datasets for academic projects, providing guidance on analytical thinking and problem-solving approaches to uncover trends and insights
 - **Portfolio Development:** Reviewed and provided feedback on student project portfolios including **GitHub** repositories, data visualization dashboards, and analytical reports, emphasizing best practices in documentation and presentation
- **CGI** Oct 2022 - Dec 2023
Data Analyst - Business Intelligence Hyderabad, India
 - **Visualization & Reporting:** Created and maintained dashboards and reports in **Power BI**, **Tableau**, and **SAP Business Objects**, cleaning and organizing datasets from 10M+ monthly records to uncover trends and insights supporting data-driven decision-making for \$500K+ strategic initiatives
 - **SQL Query Development:** Wrote **SQL** queries to extract and transform data from relational databases, developing complex joins, subqueries, and stored procedures processing 5M+ weekly transactions, optimizing data extraction workflows reducing runtime by 40%
 - **Dataset Analysis:** Cleaned, organized, and analyzed datasets using **Python** (Pandas, SciPy), **SQL**, and **Excel** (pivot tables, advanced functions), applying statistical concepts to identify operational trends, anomalies, and improvement opportunities with strong analytical thinking
 - **Team Collaboration:** Collaborated with cross-functional teams including business analysts, operations managers, and IT to understand business needs and data requirements, presenting findings to internal teams through compelling data visualizations and analytical storytelling
 - **Advanced Excel Development:** Utilized **Excel** at advanced level including pivot tables, VLOOKUP, INDEX-MATCH, Power Query, VBA macros, and complex charts to automate recurring reports, reducing delivery effort by 40% while maintaining 99% accuracy
 - **Process Documentation:** Assisted in documenting processes for data workflows, ETL pipelines, and reporting procedures, creating comprehensive mapping sheets and technical guides ensuring knowledge transfer across 12 team members
- **CGI** Apr 2021 - Sep 2022
Data Analyst - Operations Bangalore, India
 - **Operational Dashboards:** Created and maintained dashboards and reports using **Power BI** and **Excel**, cleaning and organizing datasets from 3M+ operational records to uncover trends and insights on performance metrics, workload distribution, and SLA compliance
 - **Data Extraction & Transformation:** Wrote **SQL** queries to extract and transform data from ticketing systems and databases, developing views and automated data extracts processing 2M+ weekly records to support data-driven decision-making
 - **Trend Analysis:** Cleaned, organized, and analyzed datasets using **SQL** and **Excel** (pivot tables, functions, charts) with strong analytical thinking to uncover trends and insights improving backlog efficiency by 45% and reducing resolution time by 30%
 - **Stakeholder Collaboration:** Collaborated with cross-functional teams across multiple field offices to understand business needs and data requirements, presenting findings to internal teams and senior management with clear communication of technical information
 - **Documentation & Training:** Assisted in documenting processes for workflow management, reporting standards, and data quality procedures, providing training materials that improved team analytical capabilities by 40%
- **CGI** Sep 2020 - Mar 2021
Associate Data Analyst Hyderabad, India
 - **Data Preparation:** Cleaned, organized, and analyzed datasets using **SQL** and **Excel** (pivot tables, Power Query, functions) from 1M+ monthly records, extracting and transforming data to uncover trends and insights supporting analytics teams with 98% data quality
 - **SQL Development:** Wrote **SQL** queries to extract and transform data from relational databases, developing basic views and stored procedures to support dashboards and reports across 5 business departments

- **Excel Analysis:** Utilized **Excel** at advanced level including pivot tables, VLOOKUP, complex functions, and charts to perform data analysis, validation checks, and ad-hoc reporting improving overall accuracy by 35%
- **Report Support:** Assisted in creating and maintaining reports using **SQL** and **Excel**, collaborating with team members to understand business needs and data requirements, presenting findings to stakeholders through clear visualizations
- **Process Documentation:** Assisted in documenting processes including data dictionaries, SQL scripts inventory, and workflow guides, maintaining comprehensive technical documentation serving as reference for 15+ team members

PORTFOLIO & PROJECTS

- **GitHub Portfolio:** github.com/suryakoduru - Data analysis projects showcasing SQL, Python, data visualization, and statistical analysis
- **Power BI Dashboard Project:** Developed interactive sales analytics dashboard analyzing 500K+ transactions with drill-down capabilities, trend analysis, and KPI tracking
- **Python Data Analysis:** Built ETL pipeline using Python (Pandas, NumPy) to clean and analyze 1M+ e-commerce records, uncovering customer behavior patterns
- **SQL Database Project:** Designed and implemented normalized database schema with 15+ tables, complex queries, and stored procedures for inventory management

CERTIFICATIONS

- **Data Science:** Data Science Certification - UpGrad
- **Programming:** Python Foundation Certification - Udacity
- **Agile:** Scaled Agile Framework (SAFe)
