Profile

Results-driven Data Analyst with 4+ years of experience in transforming raw data into actionable insights. Proficient in SQL, Python, and R, with expertise in ETL pipelines, dashboard design, and advanced statistical/business analysis. Skilled in Power BI, Tableau, and managing large-scale databases (MS SQL, Oracle, PostgreSQL, MongoDB, Snowflake, BigQuery). Strong background in KPI reporting, A/B testing, risk analysis, and data governance, with hands-on exposure to cloud platforms (AWS, GCP, Azure) and Agile/Scrum delivery.

Skills

Programming & Scripting Python, R, Java	Databases & Query Languages SQL (MS SQL Server, Oracle, MySQL, PostgreSQL, IBM DB2, Snowflake, BigQuery, MongoDB, RDBMS)	Analytics & Reporting EDA, Descriptive & Diagnostic Analytics, KPI Reporting, A/B Testing, Cost/Benefit Analysis, GAP & Impact Analysis, Risk Analysis, Data Profiling, UAT
Visualization & Reporting Tools Power BI, Tableau	Cloud Platforms AWS (EC2, S3, RDS, Glue, Lambda), GCP, Azure	ERP/CRM Systems Workday, PeopleSoft, Salesforce
Methodologies & Collaboration Agile/Scrum, SDLC, Waterfall, UML, Stakeholder Communication		

Professional Experience

Data Analyst, IT Pros	03/2024 – Present
- Developed and automated ETL pipelines using Python & SQL, reducing manual reporting time by 40%. - Designed interactive dashboards in Power BI & Tableau, improving executive reporting efficiency by 30%. - Conducted A/B testing and impact analysis on marketing campaigns, enhancing effectiveness and conversion. - Performed data profiling and risk analysis to ensure quality, accuracy, and compliance across business units. - Optimized large-scale databases (PostgreSQL, Snowflake, BigQuery) for faster query performance. - Defined KPIs with stakeholders and built reporting frameworks, reducing decision-making delays by 20%. - Supported UAT processes for analytics solutions, ensuring smooth deployment and adoption.	
Data Analyst, Smartfox	01/2021 – 07/2022
- Built end-to-end reporting solutions in Tableau & Power BI, improving data visibility and decision-making by 35%. - Automated recurring reports using Python, SQL, and R, cutting cycle times by 45%. - Conducted exploratory & diagnostic analytics on sales and operations data, driving a 12% revenue uplift. - Partnered with Agile/Scrum teams to deliver analytics solutions within sprint timelines. - Improved data governance with validation and profiling checks, increasing reporting accuracy by 20%. - Designed KPI dashboards to monitor efficiency, retention, and cost savings, reducing costs by 15%. - Presented insights to senior management, influencing \$2M+ in strategic decisions.	

Projects

Sales Forecasting (Python + SQL)
- Analyzed historical sales data from SQL Server using Python to identify daily, weekly, and monthly sales trends. - Delivered time-based insights with Matplotlib & Seaborn, enabling better planning and inventory management.
Online Sales Data Visualization (Tableau)
- Built interactive dashboards with symbol maps, heatmaps, and text tables to uncover product, region, and time-based sales patterns. - Provided actionable insights to support strategic business decisions and optimize marketing efforts.

Education

Masters in Information Technology, Atlantis University	08/2022 – 08/2024
Bachelors in Civil Engineering, JNTUK	07/2015 – 07/2021
