Experience

- Client Support Specialist - ADP Inc.
 - March 2022 - March 2025
 - Retrieved and verified complex client data by navigating multiple internal systems and databases, including payroll, HR, and benefits platforms. Ensured data accuracy by cross-referencing client information with company policies and procedures, demonstrating strong attention to detail and data integrity.
 - Conducted in-depth research to resolve client inquiries, using digital archives, internal documentation, and official sources (e.g., IRS, state websites). Developed strong analytical skills while interpreting and summarizing regulatory content to provide clear, actionable solutions.
 - Identified patterns and recurring client issues through daily interactions and case tracking. Used these insights to suggest process improvements to internal teams, a skill directly transferable to recognizing trends in datasets and contributing to data-driven decision-making.
 - Communicated across multiple channels, including phone, email, and case management platforms, to deliver consistent and clear support. Translated technical information into simple terms for clients—mirroring the communication and storytelling skills essential in presenting data insights to stakeholders.
 - Maintained organized digital records by accurately documenting client interactions, resolutions, and research findings in Salesforce and internal systems. This reflects cataloging and metadata management practices used in structured data environments.
 - Collaborated with cross-functional teams, such as technical support and compliance, to clarify discrepancies and ensure cohesive, data-backed responses. Leveraged teamwork to improve system accuracy and client satisfaction.
 - Managed 20-30 cases daily, prioritizing high-impact issues while maintaining quality and efficiency. Demonstrated time management and adaptability during peak seasons like tax time and open enrollment—paralleling the ability to manage deadlines and large datasets.
 - Trained clients on navigating self-service tools and reports, ensuring they could access their data independently. This role also involved identifying usability issues and providing feedback to improve user interfaces, similar to optimizing data dashboards for clarity and impact.
 - Collaborated with internal departments to resolve complex client issues, ensuring timely follow-up and detailed documentation in CRM systems.
 - Interpreted payroll and benefits policies to provide accurate guidance to clients, demonstrating attention to detail and compliance awareness.
 - Identified recurring support issues and proposed improvements to client resources and training materials to reduce future inquiries.
- MyLife Advisor - ADP Inc.
 - Feb 2019 - Oct 2021
 - Researched and provided solutions to complex client inquiries related to payroll, benefits, HR policies, and compliance issues. Used internal databases and online resources to analyze and verify information, ensuring accuracy and clarity.
 - Organized and maintained client records by categorizing, updating, and retrieving data within digital systems, ensuring seamless accessibility and compliance. Applied information management techniques comparable to cataloging and metadata organization.
 - Summarized and documented cases by composing detailed reports and recap emails outlining client concerns, resolution steps, and preventive measures. Developed structured documentation akin to research guides, policy manuals, and instructional materials.
 - Assisted clients in navigating HR resources and policies, guiding them to the appropriate information efficiently. Acted as an information intermediary.
 - Utilized digital tools and databases to access, retrieve, and analyze sensitive data while maintaining confidentiality. Gained proficiency in information retrieval systems.
 - Collaborated with internal teams and third-party vendors to address complex service issues, ensuring timely and accurate resolution. Worked cross-functionally, reflecting the interdisciplinary services coordinating with different departments and external research networks.

Education

- Bachelor of Arts in Art History
 - Florida International University

Professional Certification

- UI/UX Design Bootcamp - 2023
 - University of Miami
 - Completed an intensive, project-based program focused on user-centered design principles, wireframing, prototyping, and usability testing. Gained hands-on experience with tools like Figma and Adobe XD while developing responsive web and mobile interfaces grounded in accessibility and research-driven design.
- Google Data Analytics Specialization - 2025
 - Completed an 8-course certification covering data collection, cleaning, analysis, and visualization using tools such as Excel, SQL, R, and Tableau. Developed practical skills in interpreting data, applying analytical thinking, and creating clear, data-driven reports to support business decisions.
