OLD BRIDGE / NJ, 08857

SKILLS

- SQL (MySQL)
- Excel (XLookup, Conditional Formatting, Pivot Tables)
- Tableau
- Microsoft Power BI
- Python
- Microsoft Azure
- Polygot (German, English, Turkish)

PROJECTS

HOSPITAL ACQUIRED INFECTIONS – Portfolio Project June 2025

- Used Excel to analyze the HAI's and SIR in all hospitals in NY State from 2008 to 2022.
- Cleaned the dirty data with IF function and manual correction in the standardization phase.
- Generated tables and calculations using XLOOKUP, AVERAGE functions and visualized the clean data with PIVOT TABLE and CHART.

NY STATE CENSUS POPULATION 2010-2020 – Portfolio Project June 2025

- Used MySQL to analyze the population changes in villages, towns, cities and counties of NY State in the years 2010 and 2020.
- Cleaned the raw data by checking potential NULL, 0 or BLANK values, through statements, functions and operators such as COUNT, REGEXP_LIKE, HAVING, WHERE, GROUP BY, REGEXP_REPLACE, UPDATE, SUBSTRING_INDEX, CONCATENATE during the data cleaning and standardization process.
- Built queries to search the population differentials of all area types of NY State in the 10-year span using SUBQUERIES, WINDOW FUNCTIONS and CASE statements.

MTA SUBWAY TRAIN DELAYS 2020 – 2024 – Portfolio Project June 2025

- Used Tableau to analyze, build relations and visualizations from the dataset that spans from 2020 to 2024.
- Created charts by building hierarchies and calculated fields, displaying percentages and labels and building a dashboard to visualize my findings and recommendations.

WORK EXPERIENCE

DATA ANALYST – Meta Bilgisayar – TURKEY – Remote February 2019 - February 2024

- Generated monthly and annual fiscal reports using Excel, helping the company to set up financial goals according to my reports and saving the company precious time especially at the end of fiscal year.
- Compiled bills and invoices and handled all data entry related issues for the company, averting potential financial mistakes and aiding company invest its capital on needed areas.
