PROFESSIONAL EXPERIENCE

Business Analyst

Meet Logistics LLC | 2024 – 2025

- Partnered with business stakeholders to gather and document functional requirements for system enhancements.
- Conducted process mapping and identified opportunities for workflow improvement.
- Assisted in translating business needs into technical documentation including RTMs and test cases.

- Supported UAT coordination, defect tracking, and post-implementation validation.
- Built Power BI dashboards to monitor adoption metrics and operational KPIs.
- Collaborated with IT and operations teams to ensure successful system implementation

Business Analyst

Kotak Bank | 2021 – 2023

- Gathered and documented requirements for enterprise financial systems and ERP platforms.
- Supported business process analysis and documentation efforts.
- Assisted with test case preparation and UAT execution.
- Used SQL to validate system outputs and ensure reporting accuracy.
- Participated in Agile ceremonies including sprint planning and backlog refinement.
- Created performance dashboards to support operational monitoring

Junior Systems Analyst

Indiabulls Bank | 2019 – 2021

- Assisted in documenting system requirements and process workflows.
- Performed SQL-based data validation and reconciliation checks.
- Supported UAT testing and defect documentation.
- Coordinated with IT teams to resolve system issues.
- Analyzed transaction data to identify discrepancies and support reporting accuracy improvements.
- Contributed to process improvement initiatives by recommending workflow standardization.
- Assisted in preparing functional documentation and user guides for system updates.

Systems Support Analyst

HSBC Bank | 2017 – 2019

- Supported enterprise applications and assisted with system integrations.
- Conducted impact analysis and testing validation.
- Assisted in documentation and reporting support activities.
- Monitored system performance and escalated issues to ensure minimal operational disruption.
- Collaborated with cross-functional teams to support production releases and environment stabilization.
- Maintained data accuracy through routine verification and validation procedures.
