

Aneesh Gourineni

DATA ANALYST

Denton, TX | (469)-464-9651 | aneeshgourineni@hotmail.com

PROFESSIONAL SUMMARY

Data Analyst with over 5 years of experience transforming complex datasets into actionable insights for organizations like eBay and Accenture; improved reporting efficiency by over 30% through automation of **ETL processes**, while reducing **SQL query execution time by 40%**. Automated 90% of the team's ETL processes using **Python and Apache Airflow**, freeing up 20+ weekly hours for senior analysts to focus on advanced modeling and predictive analysis.

TECHNICAL SKILLS

Languages & Queries: SQL (Joins, CTEs, Window Functions), Python (Pandas, NumPy, Seaborn, Matplotlib), R (Basic)
Visualization: Power BI (DAX, Power Query), Tableau (Storytelling, Parameters), Google Data Studio, Excel (Pivot Tables, Macros, Power Query)
Analytics & Modeling: Forecasting, Time Series, Regression, Cohort Analysis, A/B Testing, Data Cleaning & Transformation
Databases & Cloud: Azure SQL, MySQL, PostgreSQL, Oracle DB, Google BigQuery
ETL & Tools: Alteryx, Apache Airflow (Basic), Excel Power Query, Talend
Collaboration & Platforms: JIRA, Confluence, Azure DevOps, SharePoint, MS Teams, Salesforce (Basic)
Advanced Technical Skills: Model Deployment (Batch & Real-time), Version Control (Git), Data Warehousing Concepts, Feature Engineering, Cross-validation, Model Evaluation (ROC, AUC, F1), Data Governance (HIPAA, SOC 2)

PROFESSIONAL EXPERIENCE

Data Analyst | eBay, San Jose, CA Jan 2025 - Current

- Spearheaded the creation of 15+ Power BI dashboards employing calculated columns and DAX measures that visualized marketplace trends, leading to a 10% increase in gross merchandise volume.
- Catalyzed a 40% acceleration in query execution time for critical business intelligence reports by optimizing SQL code, enabling faster identification of key trends by the marketing team.
- Led 25+ A/B testing experiments using Python to assess feature viability, resulting in data-driven decisions that improved the buyer-seller ratio by 15% within key marketplace segments.
- Defined analytical requirements by closely leading with product, engineering, and data science teams, generating dashboards informing optimal bidding strategies that increased ad revenue by 20%.
- Engineered end-to-end data workflows with Python and Azure Data Factory, slashing manual intervention by 80%; this freed up three data analysts to focus on higher priority tasks.
- Deployed machine learning algorithms for anomaly detection, flagging fraudulent transactions and policy violations, contributing to a substantial 15% reduction in seller non-compliance incidents.
- Visualized customer segmentation data to pinpoint high-value customer groups, leading to the crafting of personalized marketing campaigns; this initiative increased customer lifetime value by 10% within six months.
- Initiated a data governance initiative, establishing data quality metrics and monitoring dashboards, which elevated adherence to regulatory requirements by 25% and reduced audit findings.

Junior Data Analyst | i-HiddenTalent, Gujarat, India Feb 2019 - Jun 2023

- Deployed robust data visualizations via 23 Tableau and Power BI dashboards, tracking client KPIs across finance, operations, and marketing, directly informing strategic decisions impacting revenue generation.
- Formulated advanced SQL queries, stored procedures, and CTEs to extract and transform multi-million row datasets, leading to a 50% reduction in query runtime for the data science group.
- Mapped ambiguous business needs into concrete data models and KPIs, creating impactful visualization strategies across 5+ client projects, aligning technical solutions to business goals.
- Probed multi-dimensional customer data using Python (Pandas, NumPy, Seaborn) to pinpoint behavior patterns, directly contributing to an 18% boost in client retention and engagement metrics for Accenture clients.
- Constructed 5+ robust Power Query solutions, leading to a 30% acceleration in data processing speeds for monthly sales reports and freeing up time for higher value data interpretation.
- Championed UAT and QA testing for 10+ BI dashboards, ETL processes, and SQL pipelines, rectifying data discrepancies to uphold data integrity and bolster stakeholder trust by 40%.
- Delivered data-driven recommendations on optimizing resource allocation via targeted data explorations, driving a 12% gain in productivity across critical client projects and enhancing project turnaround time.
- Championed Agile methodologies within the analytics team, leading sprint planning and review sessions that refined on-time delivery of key performance indicators by 20% and supported data-driven strategic decisions.

EDUCATION

Master of Sciences in Analytics Science | University of North Texas, Denton, TX

CERTIFICATE

Fabric Data Engineer Associate | DevOps Engineer Expert | Azure Data Fundamentals | Azure Developer Associate | Security, Compliance, and Identity Fundamentals | Power Platform Fundamentals | Azure Fundamentals
