

ARTURO RINCON

(832) 694-9606 | arinco9@wgu.edu | Houston, TX | [LinkedIn](#) | [GitHub](#)

U.S. Citizen

EDUCATION

Bachelor of Science in Computer Science

Graduated August 2025

Western Governors University | Salt Lake City, UT

Relevant Coursework: Data Structures and Algorithms, Discrete Mathematics, Computer Architecture, Data Management, Web Development, Back-End Application Programming, Java Advanced.

Bachelor of Science in Petroleum Engineering

Graduated December 2015

Universidad Industrial de Santander | Bucaramanga, Colombia

SKILLS

Programming Languages: Java, Python, JavaScript, C++, SQL

Frameworks & Libraries: React, Next.js, Spring Boot, Angular, Express.js, Tailwind CSS

Web Technologies: HTML5, CSS3, REST API development, FastAPI

Databases: MySQL, MongoDB

Data Science & AI (for ML Resume): scikit-learn, pandas, NumPy

Tools & Platforms: Git, GitHub, Power BI, Tableau, Postman, Microsoft Azure, AWS, Linux, Microsoft Excel.

Methodologies: Agile/Scrum, Software Design & QA, Unit Testing (JUnit, Jest)

PROJECTS

U.S. Electricity Generation Data Analysis | SQL, Power BI, Excel

[GitHub Repository](#)

- Conducted end-to-end analysis of U.S. electricity generation data using SQL queries and Power BI dashboards.
- Produced insights on year-over-year generation trends, growth rates, and top-performing states, enabling data-driven policy evaluation.
- Designed Power BI dashboards showing total generation, growth rates, top sources, and top 5 states, enhancing stakeholder insight into U.S. energy trends.
- Documented SQL logic and findings in a technical report.

Landon Hotel Scheduling Application | Java, Spring Boot, Angular, Docker

[GitHub Repository](#)

- Implemented multithreaded language translation to display welcome messages in English and French.
- Enhanced front end with multi-currency reservation prices (USD, CAD, EUR) for internationalization.
- Developed time zone conversion to display online presentation times in ET, MT, and UTC.
- Containerized the full application using Docker, enabling easy deployment and scalability.

Vacation Booking System Migration | Java, Spring Boot, Spring MVC, Spring Data JPA, Spring Data REST, MySQL, Lombok

[GitHub Repository](#)

- Migrated a legacy travel agency back-end to a modern Java Spring framework to support Angular front-end bookings.
- Designed project structure with controllers, entities, DAO, services, and config, including Spring Data JPA repositories and REST endpoints.
- Developed checkout services, data models, and validation to handle orders, enforce input requirements, and provide order tracking.

Inventory Management System | Java, Spring MVC, JavaFX, HTML, CSS

[GitHub Repository](#)

- Customized a Java Spring inventory system for a retail store, improving the UI with store branding and intuitive navigation.
- Implemented automated sample inventory loading and a purchase flow with real-time stock updates.
- Developed and enforced minimum/maximum inventory validation, preventing errors and ensuring data integrity.

WORK EXPERIENCE

Amazon – Operations Technology IT Ambassador | Houston, TX

July 2021 – Present

- Provide frontline network and hardware support for fulfillment center operations, ensuring maximum uptime of scanners, printers, workstations, and network-connected devices.
- Assist in network troubleshooting, data cabling, and system configuration, supporting critical warehouse infrastructure and connectivity.
- Monitor and document incident tickets, root causes, and resolutions using Amazon's internal systems to ensure consistent issue tracking and knowledge sharing.

CERTIFICATIONS & EXTRACURRICULARS

Linux Essentials Certificate

Linux Professional Institute | October 2024

ITIL® Foundation Certificate in IT Management

PeopleCert | December 2024
