

ASHUTOSH KUMAR

Business Analyst

NJ, USA | +1 908 462-2689 | ashutoshkumar41658@gmail.com | LinkedIn

SUMMARY

Strategic and data-driven Business Analyst with 3+ years of experience translating complex business challenges into actionable technology and process solutions. Proficient in requirements management, data analysis, and Agile delivery, with hands-on expertise in SQL, Power BI, JIRA, and process automation. Adept at collaborating with cross-functional stakeholders to optimize workflows, improve data accuracy, and support informed decision-making. Strong background in SDLC, UAT, and business process reengineering, with a proven track record of improving project delivery timelines and reporting efficiency.

TECHNICAL SKILLS

- **Data Analysis & Reporting:** SQL (SELECT, JOIN, Aggregation Queries), Power BI / Tableau (Dashboards, DAX, Data Visualization), Microsoft Excel (Pivot Tables, VLOOKUP, IF, Charts, Macros), PowerPoint (Insightful Presentations & Reports), Python (Basic Data Analysis, Automation)
- **AI, Automation & Data Engineering Concepts:** Predictive Analytics, Data Mapping, ETL Concepts, Data Governance, Master Data Management (MDM), Process Automation using Power BI & Python Scripts
- **Tools & Platforms:** JIRA, Confluence, Lucidchart / Draw.io (Process Mapping), ServiceNow, MS Visio, Trello (Task Management), Google Sheets / Docs (Collaboration & Reporting), Azure DevOps
- **Soft Skills:** Strong Communication, Analytical Mindset, Problem Solving, Stakeholder Management, Team Collaboration

PROFESSIONAL EXPERIENCE

Syneos Health, NJ, USA

May 2025 - Current

Business Analyst

- Lead requirement elicitation sessions with cross-functional teams to define business rules, workflows, and reporting needs across clinical and operational systems.
- Developed and maintained business process models and user stories in JIRA, improving sprint planning efficiency by 35%.
- Designed Power BI dashboards to track patient enrollment, site readiness, and compliance KPIs enhancing executive decision-making and reporting turnaround by 30%.
- Partnered with data engineers to define data mapping and transformation logic, ensuring consistency across data pipelines.
- Created and executed UAT test plans, logging and tracking issues in Confluence and JIRA for timely resolution.
- Conducted impact assessments and change analysis to identify dependencies and reduce post-release defects by 25%.
- Supported integration of EHR/EMR data for improved data governance and patient workflow automation initiatives.

Hexaware Technologies, India

Mar 2021 - Aug 2023

Business Analyst - Associate

- Gathered and analyzed functional and technical requirements across healthcare and telecom clients, enabling seamless alignment between stakeholders and development teams.
- Delivered process reengineering initiatives using Lucidchart and Visio, improving operational efficiency and reducing redundant steps by 40%.
- Automated weekly SLA and KPI tracking through Excel macros and Power BI dashboards, reducing manual reporting time by 75%.
- Created detailed BRDs, FRDs, and data flow diagrams to improve transparency across SDLC stages and minimize requirement ambiguity.
- Managed Agile sprint ceremonies, ensuring backlog grooming, sprint review, and retrospectives were completed on time.
- Coordinated UAT execution and defect triage, increasing user acceptance rate from 70% to 92%.
- Collaborated with QA teams to define acceptance criteria, reducing production defects by 30%.
- Provided insights from data validation and ad hoc SQL reports, helping leadership identify bottlenecks and improve service delivery.

EDUCATION

Masters in Computer Science

Aug 2025

Monroe College, New Rochelle, NY, USA

Bachelor of Computer Application

Jun 2022

BP Poddar Institute of Management and Technology, India
