## PROFESSIONAL EXPERIENCE

---

Program Facilitator, Harlem Children Zone

May 2023 - May 2025

- Designed and executed lesson plans based on performance metrics; adjusted strategies through data-informed feedback loops
- Work directly with students in grades through kindergarten through 4th grade in all activities like arts, sports, dance, theater, history, math, science and literature.
- Managed relationships with families and staff to align on performance goals and strategies

Independent Tutor

October 2024 - May 2025

- Developing engaging lesson plans that cover specific subjects that are the main struggle of my 6th grader
- Regularly assess student progress to identify strengths and weaknesses to adjust the focus of lessons
- Homework support and test preparation.

Bookseller-Shipping & Receiving , Barnes and Noble

September 2022- May 2023

- Managed inventory intake and quality control processes
- Improve attention to detail and accuracy in record-keeping and data entry, including verifying quants and items received and shipped.
- Trained new team members in efficient supply, reporting systems and safety protocols

## RESEARCH EXPERIENCE

---

Senior Researcher | Social Developmental Lab, New York Institute of Technology  
Supervisor: Dr. Melissa DiMartino

Sept 2023 – May 2025

- Led end to end data collection and forecasting studies; created weekly performance dashboards to communicate insights to stakeholders
- Oversaw planning and execution across research projects, optimizing timelines and resource use
- Conducted literature reviews and statistical analyses using SPSS.
- Assisted in mentoring research assistants and overseeing lab activities, managing several projects.
- Handle confidential data and information with integrity and discretion
- Made travel arrangements within a given budget for conferences
- Created budgets for conferences expenses and made expense reports

Research Assistant | Human Factors and Neuroscience Lab, New York Institute of Technology  
Supervisor: Dr. Robert Alexander

Oct 2024 – May 2025

- Utilized SR Research DataViewer to generate fixation maps and define interest areas for multiple studies.
- Conducted eye-tracking data collection and analysis.
- Filing of confidential information during and after data collection
