SUMMARY

Entry-level Full-Stack Developer with experience building **production-ready** applications featuring **authentication, RESTful APIs, and responsive UIs**. Strong foundation in **Java/Spring Boot** with proven ability to deliver complete **CRUD** systems from **database** to **frontend**.

TECHNICAL SKILLS

Languages: Java (21), MySQL, HTML, CSS, JavaScript, PHP

Frameworks/Libraries: Spring Boot, Servlets, JSP

Tools: REST API, Postman, Git, Apache Tomcat, Sessions & Cookie Management, Salesforce and JIRA.

PROJECTS

Inventory Management System – Java, JSP, Spring Boot, MySQL - [GitHub Link](#)

- Developed a **full-stack inventory management system** with database-backed CRUD, reporting, and analytics.
- Designed a **user-friendly web interface** with JSP, HTML, and CSS integrated with a MySQL backend.
- Implemented **REST APIs using Spring Boot** for data manipulation and backend integration.
- Included **search, pagination, input validation, and error handling** for a production-ready workflow.
- Created **Postman API** documentation for testing endpoints.

Ticketing System Web Application – HTML, CSS, JavaScript, Spring Boot - [GitHub Link](#)

- Built a **role based ticketing system** with separate dashboards for users and admins.
- Implemented **cookie-based authentication and session management** for secure login/logout.
- Integrated frontend with a **separate Spring Boot REST API** for ticket creation, updates, and status tracking.
- Supported **file attachments, priority management, and real time UI updates**.
- Designed **responsive and dynamic dashboards** using vanilla JavaScript and CSS.

WORK EXPERIENCE

CDK Global

May. 2025 – Present

Technical Support Analyst / May 2025 – Present

Remote

- Troubleshoot and resolved **software, network, and system errors**, maintaining a **high-resolution rate**.
- Provided **technical support** to clients on automotive software and hardware issues.
- Documented recurring issues and solutions to improve **team efficiency and knowledge base**.

Sonny's Enterprises

Jan. 2023 – May. 2025

Data Migration Specialist / Aug 2023 – May 2025

Hybrid, Tamarac, FL

- Worked with **SQL and database tools** to support migration tasks.
- Documented processes and created guides to improve **team efficiency and knowledge sharing**.
- Managed **large-scale data transfers** between systems with accuracy and attention to detail.

Technical Support Analyst / Jan 2023 – August 2023

- Responded to **client inquiries and technical issues**, maintaining a **high customer satisfaction rating**.
- **Escalated** complex issues to engineering teams while documenting cases clearly.

EDUCATION

Florida International University

Bachelor's Degree, Computer Science

December 2023

GPA: 3.63/4.0; *Cum Laude*
