

Benjamin Buckland

Boston, MA | (617) 306-3334 | benjamin-buckland@outlook.com

Summary

Data Analyst with hands-on experience designing ontology-aligned mappings for biological and clinical data to support ML-ready data development. Familiar with Python and R, working in Linux with Git/GitHub in collaborative workflows; expanding skills in Java and HTML. Known for using LLM-assisted drafting to accelerate development while maintaining rigorous validation, consistency checks, and error review.

Skills

Python, R | Linux | Git/GitHub | Ontology-aligned data mapping and markup | Data workflow design | Data quality checks and validation | Technical documentation implementation | Collaboration and stakeholder communication

Work Experience

Data Analyst

Vascentis — Boston, MA | April 2025 – Present

- Helped shape a biomedical ontology and mapping approach to ingest heterogeneous data into a knowledge graph for ML-ready data development.
- Refactored and extended a Python codebase to support a repeatable ontology mapping and knowledge graph output workflow using a test dataset as a proving ground before scaling.
- Worked in Linux and GitHub workflows, iterating quickly while keeping changes traceable, reviewable, and reproducible.
- Used LLM-assisted drafting to accelerate refactoring, while personally validating outputs through consistency checks and error review before integrating changes.

Strategic Projects Lead – Community Development

CATENA RESOURCES, LTD. — Remote | October 2023 – April 2025

- Led international research evaluating long-term community development opportunities across multiple regions.
- Produced comparative feasibility findings and recommendations to support leadership decision-making.

Program Coordinator

CATENA RESOURCES, LTD. — Bolu, Türkiye | January 2019 – September 2023

- Built and managed an equestrian services program, coordinating logistics, vendors, scheduling, and guest communications.
- Improved operations by tracking guest feedback and participation trends to increase engagement and repeat business.

Education

Bachelor of Science in Analytics (In Progress) — Northeastern University, Boston, MA

Associate of Arts in Liberal Studies — Mount Wachusett Community College, Gardner, MA
(May 2014)
