MERN Fullstack Developer

Motivated and detail-oriented Entry-Level MERN Stack Developer with hands-on experience building full-stack web applications using MongoDB, Express.js, React, and Node.js. Strong understanding of REST API development, JavaScript, Git, and modern front-end frameworks. Experienced with Git workflows, debugging, and writing clean, maintainable, production-quality code, with additional hands-on exposure to AWS services such as EC2, S3, Lambda, and API Gateway for cloud deployment and application hosting.

KEY COMPETENCIES

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL

Front-End: React, React Hooks, Redux (optional), TailwindCSS, Bootstrap

Back-End: Node.js, Express.js, REST APIs

Database: MongoDB, Mongoose, MySQL

Tools & Platforms: CI/CD (GitHub Actions), Git, GitHub, Postman, VS Code, npm, Figma

Experience

Pinwheel - Intern

June 2025 - Present

- Developed a full CRUD task management application with user authentication.
- Built RESTful API endpoints with Express.js and secured routes using JWT.
- Implemented React Hooks for dynamic state management and responsive UI components.
- Designed MongoDB/Mongoose schemas for efficient data storage and retrieval.
- Integrated AWS S3 for secure file storage and retrieval workflows.
- Deployed backend services on AWS EC2 and monitored system logs using CloudWatch.
- Leveraged AWS Lambda for background processing tasks and automation.

Environment: MERN, JWT Auth, TailwindCSS, Git, AWS (EC2, S3, Lambda, CloudWatch)

DataKind - Volunteer

Jan 2025 - May 2025

- Built an admin dashboard to manage products, including search, filter, and sorting.
- Created server-side routes to add, update, and delete product data.
- Utilized MongoDB for persistent database storage and optimized query usage.

Environment: React, Node.js, Express, MongoDB, Git

EDUCATION & CERTIFICATIONS

- **Bachelor of Science in Computer Science** - George Mason University
