

Chirag Contractor

Data Analyst

✉ ckc180562@gmail.com | [LinkedIn](#) | ☎ 302-440-3210 | 📍 Little Ferry, NJ

PROFESSIONAL SUMMARY

Data Analyst with 4+ years of experience turning data into actionable insights. Proficient in Python, R, SQL, and PySpark, with expertise in Tableau, Power BI, and Looker for data visualization. Skilled in managing databases (MySQL, PostgreSQL, Snowflake, MongoDB) and leveraging cloud platforms (AWS, GCP) for scalable data solutions. Experienced in data cleaning, ETL pipelines, and predictive modeling. Proficient in Git/GitHub and adaptable to Windows, Linux, and macOS. Strong collaborator with a proven ability to drive strategic initiatives and deliver data-driven results.

TECHNICAL SKILLS

Methodologies:	SDLC (Agile, Scrum, Waterfall, Kanban)
Programming Language:	Python, R, SQL, VBA, Shell Scripting
IDE's:	Jupyter Notebook, R Studio, Visual Studio Code, PyCharm
Python Packages:	NumPy, Pandas, Matplotlib, SciPy, ggplot2, Scikit learn, PySpark, Keras, TensorFlow
Visualization & ETL Tools:	Google Analytics, Tableau, Power BI, Talend, Airflow, SSIS, Alteryx, Informatica
Database:	PostgreSQL, Microsoft SQL Server, MySQL, Oracle RDBMS
Cloud Technologies:	Databricks, Azure, AWS (S3, RDS, Redshift, Lambda), Snowflake
Other Tools:	Docker, MS Excel, Git, Looker, GitHub, MS Visio, Qlik, Jira, CI/CD, Git Bash
Operating System:	Windows, Linux

WORK EXPERIENCE

Data Analyst | Principal Financial Group, NJ - USA

July 2023 – Present

- Using Agile methodologies to manage end-to-end data analysis projects, ensuring on-time delivery and alignment with organizational objectives.
- Leveraging Python and libraries like Pandas, NumPy, and PySpark to automate data cleaning, transformation, and preprocessing tasks, reducing manual effort by 50% and improving workflow efficiency.
- Designing and implementing scalable ETL pipelines using Visual Studio Code and Databricks, integrating diverse data sources to streamline data processing and enhance system performance.
- Creating interactive dashboards and visualizations using Tableau, Power BI, and Matplotlib/Seaborn to communicate actionable insights, enabling data-driven decision-making for stakeholders.
- Developing and maintaining robust SQL-based data integration packages using SQL Server Integration Services (SSIS), ensuring seamless data flow across Oracle RDBMS, Microsoft SQL Server, and Snowflake.
- Conducting advanced analytics and predictive modeling to identify trends, segment customers, and support strategic business initiatives.
- Executing ETL processes on AWS RDS, Redshift, and Google BigQuery to integrate and optimize data across cloud platforms, improving data accessibility and consistency.
- Ensuring data integrity and quality by implementing robust data validation and cleaning processes, reducing errors by 30% and enhancing reliability.
- Partnering with cross-functional teams to define KPIs, deliver insights, and drive data-informed strategies, contributing to a 15% increase in operational efficiency.

Data Analyst | Spectrum Webapps, IND

January 2019 – August 2021

- Utilized Agile methodology to oversee the entire project lifecycle, including requirements gathering, planning, design, and deployment, ensuring timely delivery and alignment with business objectives.
- Conducted in-depth data analysis using Python and SQL, uncovering actionable insights that improved operational efficiency by 15% and supported data-driven decision-making.
- Enhanced data quality and analysis speed by 30% by implementing advanced data cleaning and transformation techniques using Pandas and NumPy.
- Spearheaded a project to streamline data analysis workflows, achieving a 30% reduction in the turnaround time for analytical reports and improving team productivity.
- Designed and executed complex SQL queries in MySQL to validate and ensure the accuracy, reliability, and consistency of critical datasets.
- Partnered with stakeholders across departments to define KPIs, deliver insights, and drive data-informed strategies, contributing to a 10% increase in revenue growth.
- Applied statistical modeling and machine learning techniques to identify trends, perform customer segmentation, and forecast business outcomes.

EDUCATION

Masters in Data Science

September 2021 – May 2023

New Jersey Institute of Technology, Newark, NJ – USA

Bachelors of Engineering in Computer engineering

August 2015 – May 2019

Shree Swami Atmananad Saraswati Institute of Technology, Surat, Gujarat – INDIA
