(774) 519-2999 | enossnicker@gmail.com

PROFESSIONAL SUMMARY

Results-driven Data Analyst with experience delivering actionable insights through data analysis, dashboards, and reporting across industry, government, and academic environments. Strong background in statistical modeling, time series analysis, and data visualization using Python, SQL, Tableau, and Power BI. Proven ability to translate complex data into clear business and policy recommendations.

TECHNICAL SKILLS

Programming & Querying	Python, R, SQL, Java
Data Visualization & BI	Tableau, Power BI, Salesforce Dashboards
Analytics & Modeling	Statistical Analysis, Machine Learning, Time Series Forecasting (ARIMA, SARIMA), Data Mining
Tools & Platforms	Excel, Database Management Systems
Soft Skills	Data Storytelling, Stakeholder Communication, Problem Solving, Project Coordination

PROFESSIONAL EXPERIENCE

Data Analyst

Evolve ODM – Remote, USA

May 2024 – October 2024

- Designed and maintained interactive dashboards in Tableau and Salesforce, improving visibility in marketing performance and KPIs.

- Analyzed structured and unstructured datasets to uncover trends, improving market insight and decision-making accuracy.
- Troubleshoot reporting databases and resolved data quality issues to ensure reliable, real-time reporting.
- Partnered with cross-functional teams to translate business needs into data-driven solutions.

Data Analyst

Asokwa Municipal Assembly – Ghana

September 2019 – August 2023

- Conducted descriptive and inferential statistical analysis to support planning, budgeting, and municipal development initiatives.
- Developed analytical reports that informed policy decisions and operational improvements.
- Collaborated with government officials to convert data findings into actionable strategies.
- Improved data accuracy and reporting efficiency across departments.

Data Entry

SweetIQ – Canada

May 2018 – August 2018

- Ensured accurate data entry and identified inconsistencies for correction.
- Supported compliance with changing data and recordkeeping regulations.
- Assisted clients and internal teams by handling data-related inquiries.

PROJECTS

1. Data Breaches Analysis & Visualization (Tableau)
 - Analyzed global data breach datasets to identify trends, attack methods, and impacted industries.

- Built interactive Tableau dashboards featuring geospatial maps, time series trends, and heatmaps.
- Delivered visual insights that improved understanding of cybersecurity risks.

2. Time Series Analysis of Infant Mortality Rates

- Collected, cleaned, and analyzed hospital infant mortality records.
- Applied ARIMA, SARIMA, and Exponential Smoothing models to forecast future trends.
- I identified long-term patterns and seasonal variations to support healthcare planning.

EDUCATION

Master of Science in Data Science

Fitchburg State University – Fitchburg, MA

Bachelor of Science in Statistics

Kwame Nkrumah University of Science and Technology – Kumasi, Ghana
